23. Nutrition.....	6
24. Occupational health	6

Project Selection Tools by Dorji Penjore (work under progress)

1. Employment			
Will decrease opportunities for employment	Do not know the effects on opportunities for employment	Will not have any appreciable effects on opportunities for employment	Will increase opportunities for employment
1	2	3	4

2. Financial security			
Will result in decreased levels of financial security	Do not know the effects on levels of financial security	Will not have any appreciable effects on levels of financial security	Will result in increased levels of financial security
1	2	3	4

3. Income			
Will result in a net decrease in income levels	Do not know the effects on income generation	Will not have any appreciable effects on income generation	Will result in a net increase in income levels
1	2	3	4

4. Income distribution			
Will result in a less equal distribution of income	Do not know the effects on the distribution of income	Will not have any appreciable effects on the distribution of income	Will result in a more equal distribution of income
1	2	3	4

5. Income bias			
Will bias outcome toward higher income groups	Do not know the effects on income bias	Will not have any appreciable effects on income bias	Will bias outcome toward lower income groups
1	2	3	4

6. Urban bias			
Will bias outcome toward urban groups	Do not know the effects on urban bias	Will not have any appreciable effects on urban bias	Will bias outcome toward rural groups

Project Selection Tools by Dorji Penjore (work under progress)

1	2	3	4
---	---	---	---

7. Savings			
Will result in a decrease in potential savings	Do not know the effects on potential savings	Will not have any appreciable effects on potential savings	Will result in an increase in potential savings
1	2	3	4

8. Debt			
Will result in a net decrease in financial debt within the population	Do not know the effects on financial debt within the population	Will not have any appreciable effects on financial debt within the population	Will result in a net increase in financial debt within the population
1	2	3	4

9. House ownership			
Will favour an increase in the number of people living in rented residences	Do not know the effects on the number of people in owned or rented residences	Will not have any appreciable effects on the number of people in owned or rented residences	Will favour an increase in the number of people living in owned residences
1	2	3	4

10. Affordable housing			
Will decrease opportunities to obtain affordable housing	Do not know the effects on opportunities to obtain affordable housing	Will not have any appreciable effects on opportunities to obtain affordable housing	Will increase opportunities to obtain affordable housing
1	2	3	4

11. Transport			
Will decrease availability of affordable and effective public transportation	Do not know the effects on the availability of affordable and effective public transportation	Will not have any appreciable effects on the availability of affordable and effective public transportation	Will increase availability of affordable and effective public transportation

Project Selection Tools by Dorji Penjore (work under progress)

1	2	3	4
---	---	---	---

12. Housing adequacy

Will decrease opportunities for households to obtain housing with adequate number of rooms	Do not know the effects on opportunities for households to obtain housing with adequate number of rooms	Will not have any appreciable effects on opportunities for households to obtain housing with adequate number of rooms	Will increase opportunities for households to obtain housing with adequate number of rooms
1	2	3	4

13. Housing quality

Will decrease opportunities to obtain affordable housing	Do not know the effects on opportunities to obtain affordable housing	Will not have any appreciable effects on opportunities to obtain affordable housing	Will increase opportunities to obtain affordable housing
1	2	3	4

14. Stress

Will decrease levels of stress in the population	Do not know the effects on levels of stress in the population	Will not have any appreciable effects on levels of stress in the population	Will increase levels of stress in the population
1	2	3	4

15. Leisure time

Will decrease opportunities to spend time with family and friends	Do not know the effects on opportunities to spend time with family and friends	Will not have any appreciable effects on opportunities to spend time with family and friends	Will increase opportunities to spend time with family and friends
1	2	3	4

16. Sick and elderly

Will result in a reduced ability for households to care for	Do not know the effects on the ability for households to care for	Will not have any appreciable effects on the ability for	Will result in an enhanced ability for households to care for
---	---	--	---

Project Selection Tools by Dorji Penjore (work under progress)

the sick and elderly	for the sick and elderly	households to care for the sick and elderly	the sick and elderly
1	2	3	4

17. Childcare

Will result in a reduced ability for household members to participate in childcare	Do not know the effects on the ability for household members to participate in childcare	Will not have any appreciable effects on the ability for household members to participate in childcare	Will result in an enhanced ability for household members to participate in childcare
1	2	3	4

18. Community participation

Will decrease opportunities to participate in community activities and volunteerism	Do not know the effects on opportunities to participate in community activities and volunteerism	Will not have any appreciable effects on opportunities to participate in community activities and volunteerism	Will increase opportunities to participate in community activities and volunteerism
1	2	3	4

19. Religious participation

Will decrease opportunities to participate in religious activities	Do not know the effects on opportunities to participate in religious activities	Will not have any appreciable effects on opportunities to participate in religious activities	Will increase opportunities to participate in religious activities
1	2	3	4

20. Recreation

Will decrease opportunities to participate in sports and recreation	Do not know the effects on opportunities to participate in sports and recreation	Will not have any appreciable effects on opportunities to participate in sports and recreation	Will increase opportunities to participate in sports and recreation
1	2	3	4

Project Selection Tools by Dorji Penjore (work under progress)

21. Air quality			
Will result in a decline in urban air quality	Do not know the effects on urban air quality	Will not have any appreciable effects on urban air quality	Will result in an improvement in urban air quality
1	2	3	4

22. Drinking water			
Will decrease availability and quality of safe drinking water	Do not know the effects on the availability and quality of safe drinking water	Will not have any appreciable effects on the availability and quality of safe drinking water	Will increase availability and quality of safe drinking water
1	2	3	4

23. Nutrition			
Will result in a decline in nutritionally balanced dietary intake	Do not know the effects on nutritionally balanced dietary intake	Will not have any appreciable effects on nutritionally balanced dietary intake	Will result in an improvement in nutritionally balanced dietary intake
1	2	3	4

24. Occupational health			
Will decrease levels of occupational safety and health	Do not know the effects on levels of occupational safety and health	Will not have any appreciable effects on levels of occupational safety and health	Will increase levels of occupational safety and health
1	2	3	4
