1. Agriculture

1. Traditional resource management knowledge			
Will lead to the loss of traditional natural resource management knowledge	Do not know the effects on traditional natural resource management knowledge	Will not have any appreciable effects on traditional natural resource management knowledge	Will lead to the loss of traditional natural resource management knowledge
1	2	3	4

2. Traditional resource management institutions			
Will lead to the loss of traditional natural resource management institutions	Do not know the effects on traditional natural resource management institutions	Will not have any appreciable effects on traditional natural resource management institutions	Will lead to the loss of traditional natural resource management institutions
1	2	3	4

3. Farmland availability			
Will encroach on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Do not know the effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will not have any appreciable effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will increase farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>
1	2	3	4

4. Fallow land			
Will increase the number of fallow agricultural acres	Do not know the effects on the number of fallow agricultural acres	Will not have any appreciable effects on the number of fallow agricultural acres	Will decrease the number of fallow agricultural acres
1	2	3	4

5. Land degradation			
Will increase soil erosion and land degradation	Do not know the effects on soil erosion and land degradation	Will not have any appreciable effects on soil erosion and land degradation	Will reduce soil erosion and land degradation
1	2	3	4

6. Urban migration			
Will increase rates of rural-urban migration	Do not know the effects on rural-urban migration	Will not have any appreciable effects on rural-urban migration	Will decrease rates of rural-urban migration
1	2	3	4

7. Voluntary reciprocal labour			
Will weaken voluntary reciprocal labour practices	Do not know the effects on voluntary reciprocal labour practices	Will not have any appreciable effects on voluntary reciprocal labour practices	Will strengthen voluntary reciprocal labour practices
1	2	3	4

8. Labour-saving devices			
Will decrease the availability of labour-saving devices	Do not know the effects on the availability of labour-saving devices	Will not have any appreciable effects on the availability of labour-saving devices	Will increase the availability of labour-saving devices
1	2	3	4

9. Rural credit			
Will decrease availability of rural credit	Do not know the effects on the availability of rural credit	Will not have any appreciable effects on the availability of rural credit	Will increase availability of rural credit
1	2	3	4

10. Manure and biomass inputs			
Will favour chemical fertilizer inputs over farmyard manure and biomass inputs	Do not know the effects on agricultural inputs	Will not have any appreciable effects on agricultural inputs	Will favour farmyard manure and biomass inputs over chemical inputs
1	2	3	4

11. Herbicide use			
Will increase the use of herbicides	Do not know the effects on herbicide use	Will not have any appreciable effects on herbicide use	Will decrease the use of herbicides
1	2	3	4

12. Pesticide use			
Will increase the use of pesticides	Do not know the effects on pesticide use	Will not have any appreciable effects on pesticide use	Will decrease the use of pesticides
1	2	3	4

13. Genetically modified species			
Will result in increased importation and use of genetically modified seeds and crops	Do not know the effects on the importation and use of genetically modified seeds and crops	Will not have any appreciable effects on the importation and use of genetically modified seeds and crops	Will result in decreased importation and use of genetically modified seeds and crops
1	2	3	4

14. Traditional crops			
Will favour imported varieties over traditional crops	Do not know the effects on the use of traditional crop	Will not have any appreciable effects on the use of traditional crop	Will favour the use traditional crops imported varieties
1	2	3	4

15. Traditional practices			
Will discourage the use and innovation	Do not know the effects on the use	Will not have any appreciable effects	Will promote the use and innovation

of traditional agricultural practices	and innovation of traditional agricultural practices	on the use and innovation of traditional agricultural practices	of traditional agricultural practices
1	2	3	4

16. Nutrition			
Will result in a decline in nutritionally balanced dietary intake	Do not know the effects on nutritionally balanced dietary intake	Will not have any appreciable effects on nutritionally balanced dietary intake	Will result in an improvement in nutritionally balanced dietary intake
1	2	3	4

17. Food self-sufficiency			
Will decrease levels of rural food self-sufficiency	Do not know the effects on rural food self-sufficiency	Will not have any appreciable effects on rural food self-sufficiency	Will increase levels of rural food self-sufficiency
1	2	3	4

18. Cereal self-sufficiency			
Will decrease levels of national cereal self-sufficiency	Do not know the effects on national cereal self-sufficiency	Will not have any appreciable effects on national cereal self-sufficiency	Will increase levels of national cereal self-sufficiency
1	2	3	4

19. Agricultural productivity			
Will result in decreased crop or livestock yields	Do not know the effects on the productivity of crop or livestock yields	Will not have any appreciable effects on the productivity of crop or livestock yields	Will result in increased crop or livestock yields
1	2	3	4

20. Crop damage			
Will result in a net increase in crops lost to wildlife damage	Do not know the effects on crops lost to wildlife damage	Will not have any appreciable effects on crops lost to wildlife damage	Will result in a net decrease in crops lost to wildlife damage
1	2	3	4

21. Agricultural biodiversity			
Will result in a decrease in agricultural biodiversity	Do not know the effects on agricultural biodiversity	Will not have any appreciable effects on agricultural biodiversity	Will result in an increase in agricultural biodiversity
1	2	3	4

22. Mono-cropping			
Will result in an increase in mono-cropping	Do not know the effects on mono-cropping	Will not have any appreciable effects on mono-cropping	Will result in a decrease in mono-cropping
1	2	3	4

23. Agricultural exports			
Will result in limited diversification of agricultural exports	Do not know the effects on the diversification of agricultural exports	Will not have any appreciable effects on the diversification of agricultural exports	Will result in increased diversification of agricultural exports
1	2	3	4

24. Value-addition			
Will limit value-addition through organic marketing strategies	Do not know the effects on value-addition through organic marketing strategies	Will not have any appreciable effects on value-addition through organic marketing strategies	Will increase value-addition through organic marketing strategies
1	2	3	4

25. Farmer income			
Will result in a net	Do not know the	Will not have any	Will result in a net

decrease in rural income levels	effects on rural income generation	appreciable effects on rural income generation	increase in rural income levels
1	2	3	4

26. Ecological impact			
Will have an adverse impact on surrounding biodiversity	Do not know the effects on surrounding biodiversity	Will not have any appreciable effects on surrounding biodiversity	Will enhance surrounding biodiversity
1	2	3	4

27. Values			
Will weaken traditional values of respect for the natural environment	Do not know the effects on traditional values of respect for the natural environment	Will not have any appreciable effects on traditional values of respect for the natural environment	Will strengthen traditional values of respect for the natural environment
1	2	3	4

28. Water supply			
Will result in decreased availability of water supply for irrigation	Do not know the effects on availability of water supply for irrigation	Will not have any appreciable effects on availability of water supply for irrigation	Will result in greater availability of water supply for irrigation
1	2	3	4

29. Water quality			
Will result in a decline in the quality of water supply for irrigation	Do not know the effects on the quality of water supply for irrigation	Will not have any appreciable effects on the quality of water supply for irrigation	Will result in an improvement in the quality of water supply for irrigation
1	2	3	4

30. Water demand			
Will increase the demand for water	Do not know the effects on the	Will not have any appreciable effects	Will decrease the demand for water

supply for agricultural purposes	demand for water supply for agricultural purposes	on the demand for water supply for agricultural purposes	supply for agricultural purposes
1	2	3	4

31. Water pollution			
Will increase levels of water pollution in the watershed	Do not know the effects on levels of water pollution in the watershed	Will not have any appreciable effects on levels of water pollution in the watershed	Will decrease levels of water pollution in the watershed
1	2	3	4

32. Air pollution			
Will increase levels of air pollution	Do not know the effects on levels of air pollution	Will not have any appreciable effects on levels of air pollution	Will decrease levels of air pollution
1	2	3	4

33. Employment			
Will result in local unemployment	Do not know if local employment will be generated	Will not have any impact on local employment	Will generate local employment
1	2	3	4

34. Equity			
Will deteriorate rural equity	Not sure if it will deteriorate rural equity	Will not have any impact on rural equity	Will address rural equity
1	2	3	4

2. Forestry

35. Traditional resource management knowledge			
Will lead to the loss of traditional natural resource management knowledge	Do not know the effects on traditional natural resource management knowledge	Will not have any appreciable effects on traditional natural resource management knowledge	Will lead to the loss of traditional natural resource management knowledge
1	2	3	4

36. Traditional resource management institutions			
Will lead to the loss of traditional natural resource management institutions	Do not know the effects on traditional natural resource management institutions	Will not have any appreciable effects on traditional natural resource management institutions	Will lead to the loss of traditional natural resource management institutions
1	2	3	4

37. Farmland availability			
Will encroach on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Do not know the effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will not have any appreciable effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will increase farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>
1	2	3	4

38. Fallow land			
Will increase the number of fallow agricultural acres	Do not know the effects on the number of fallow agricultural acres	Will not have any appreciable effects on the number of fallow agricultural acres	Will decrease the number of fallow agricultural acres
1	2	3	4

39. Soil erosion			
Will increase soil erosion	Do not know the effects on soil erosion	Will not have any appreciable effects on soil erosion	Will reduce soil erosion
1	2	3	4

40. Pesticide use			
Will increase the use of pesticides	Do not know the effects on pesticide use	Will not have any appreciable effects on pesticide use	Will decrease the use of pesticides
1	2	3	4

41. Agricultural inputs			
Will favour chemical fertilizer inputs over farmyard manure and biomass inputs	Do not know the effects on agricultural inputs	Will not have any appreciable effects on agricultural inputs	Will favour farmyard manure and biomass inputs over chemical inputs
1	2	3	4

42. Nutrition			
Will result in a decline in nutritionally balanced dietary intake	Do not know the effects on nutritionally balanced dietary intake	Will not have any appreciable effects on nutritionally balanced dietary intake	Will result in an improvement in nutritionally balanced dietary intake
1	2	3	4

43. Crop damage			
Will result in a net increase in crops lost to wildlife damage	Do not know the effects on crops lost to wildlife damage	Will not have any appreciable effects on crops lost to wildlife damage	Will result in a net decrease in crops lost to wildlife damage
1	2	3	4

44. Agricultural biodiversity			
Will result in a decrease in forestry biodiversity	Do not know the effects on forestry biodiversity	Will not have any appreciable effects on forestry biodiversity	Will result in an increase in forestry biodiversity
1	2	3	4

45. Rural income			
Will result in a net decrease in rural income levels	Do not know the effects on rural income generation	Will not have any appreciable effects on rural income generation	Will result in a net increase in rural income levels
1	2	3	4

46. Ecological impact			
Will have an adverse impact on surrounding biodiversity	Do not know the effects on surrounding biodiversity	Will not have any appreciable effects on surrounding biodiversity	Will enhance surrounding biodiversity
1	2	3	4

47. Values			
Will weaken traditional values of respect for the natural environment	Do not know the effects on traditional values of respect for the natural environment	Will not have any appreciable effects on traditional values of respect for the natural environment	Will strengthen traditional values of respect for the natural environment
1	2	3	4

48. Water quantity			
Will result in a decline in the quantity of water supply for irrigation	Do not know the effects on the quantity of water supply for irrigation	Will not have any appreciable effects on the quantity of water supply for irrigation	Will result in an improvement in the quantity of water supply for irrigation
1	2	3	4

49. Water volume			
Will decrease water volume in the watershed	Do not know the effects on water volume in the watershed	Will not have any appreciable effects on water volume in the watershed	Will decrease water volume in the watershed
1	2	3	4

50. Employment			
Will result in local unemployment	Do not know if local employment will be generated	Will not have any impact on local employment	Will generate local employment
1	2	3	4

51. Equity			
Will deteriorate rural equity	Not sure if it will deteriorate rural equity	Will not have any impact on rural equity	Will address rural equity
1	2	3	4

52. Manure			
Will encourage use of chemical fertilizers	Not sure if use of chemical fertilizers will be encourage	Will not encourage use of chemical fertilizers	Will encourage use of manures
1	2	3	4

53. Forests (supply side)			
Will deplete forests	Not sure if it will result in depletion of forests	Will not result in depletion of forests	Will conserve forests
1	2	3	4

54. Forests (demand side)			
Will result in increased consumption of	Not sure of it will result in increased consumption of	Will not result in increased consumption of	Will result in decreased consumption of

forest resources	forest resources	forest resources	forest resources
1	2	3	4

55. Forest fire			
Will increase incidence of forest fire	Not sure of it will increase incidence of forest fire	Will not increase incidence of forest fire	Will decrease incidence of forest fire
1	2	3	4

56. Fuel wood consumption			
Will increase consumption of wood for cooking	Not sure if it will increase consumption of wood for cooking	Will not increase consumption of fuel wood	Will promote electricity and LPG for cooking
1	2	3	4

57. Bukhari wood consumption			
Will increase consumption of Bukhari wood	Not sure if it will increase consumption of Bukhari wood	Will not increase consumption of Bukhari wood	Will encourage electrical appliances for heating houses
1	2	3	4

58. Briquette			
Will decrease the use of briquette for heating houses	Not sure if it will decrease the use of briquette for heating houses	Will not decrease the use of briquette for heating houses	Will encourage the use of briquette for heating houses
1	2	3	4

59. Insurance			
Will discontinue demand-based crop insurance system	Not sure if it will introduce demand-based crop insurance system	Will not introduce demand-based crop insurance system	Will introduce demand-based crop insurance system
1	2	3	4

--	--	--	--

3. Livestock

60. Traditional resource management			
Will lead to the loss of traditional natural resource management knowledge and institutions	Do not know the effects on traditional natural resource management knowledge and institutions	Will not have any appreciable effects on traditional natural resource management knowledge and institutions	Will lead to the loss of traditional natural resource management knowledge and institutions
1	2	3	4

61. Farmland availability			
Will encroach on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Do not know the effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will not have any appreciable effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will increase farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>
1	2	3	4

62. Soil erosion			
Will increase soil erosion	Do not know the effects on soil erosion	Will not have any appreciable effects on soil erosion	Will reduce soil erosion
1	2	3	4

63. Urban migration			
Will increase rates of rural-urban migration	Do not know the effects on rural-urban migration	Will not have any appreciable effects on rural-urban migration	Will decrease rates of rural-urban migration
1	2	3	4

64. Labour-saving devices			
Will decrease the availability of labour-saving devices	Do not know the effects on the availability of labour-saving devices	Will not have any appreciable effects on the availability of labour-saving devices	Will increase the availability of labour-saving devices
1	2	3	4

65. Rural credit			
Will decrease availability of rural credit	Do not know the effects on the availability of rural credit	Will not have any appreciable effects on the availability of rural credit	Will increase availability of rural credit
1	2	3	4

66. Manure inputs			
Will favour chemical fertilizer inputs over farmyard manure	Do not know the effects on manure inputs	Will not have any appreciable effects on manure inputs	Will favour farmyard manure inputs over chemical fertilizers
1	2	3	4

67. Traditional breeds			
Will favour imported varieties over traditional breeds	Do not know the effects on the use of traditional breed varieties	Will not have any appreciable effects on the use of traditional breed varieties	Will favour the use of traditional breeds over imported varieties
1	2	3	4

68. Traditional livestock rearing practices			
Will discourage the use and innovation of traditional livestock rearing practices	Do not know the effects on the use and innovation of traditional livestock rearing practices	Will not have any appreciable effects on the use and innovation of traditional livestock rearing practices	Will promote the use and innovation of traditional livestock rearing practices
1	2	3	4

69. Nutrition			
Will result in a decline in nutritionally balanced dietary intake	Do not know the effects on nutritionally balanced dietary intake	Will not have any appreciable effects on nutritionally balanced dietary intake	Will result in an improvement in nutritionally balanced dietary intake
1	2	3	4

70. Food self-sufficiency			
Will decrease levels of rural food self-sufficiency	Do not know the effects on rural food self-sufficiency	Will not have any appreciable effects on rural food self-sufficiency	Will increase levels of rural food self-sufficiency
1	2	3	4

71. Livestock productivity			
Will result in decreased livestock yields	Do not know the effects on the productivity of livestock yields	Will not have any appreciable effects on the productivity of livestock yields	Will result in increased livestock yields
1	2	3	4

72. Breed quality			
Will result in a decline in the quality of breeding stock	Do not know the effects on the quality of breeding stock	Will not have any appreciable effects on the quality of breeding stock	Will result in an improvement in the quality of breeding stock
1	2	3	4

73. Crop damage			
Will result in a net increase on crop damage from livestock	Do not know the effects on crop damage from livestock	Will not have any effects on crop damage from livestock	Will result in a net decrease in crop damage from livestock
1	2	3	4

74. Factory farming			
Will result in an increase in factory farming of livestock	Do not know the effects on the factory farming of livestock	Will not have any appreciable effects on the factory farming of livestock	Will result in a decrease in factory farming of livestock
1	2	3	4

75. Rural income			
Will result in a net decrease in rural income levels	Do not know the effects on rural income generation	Will not have any appreciable effects on rural income generation	Will result in a net increase in rural income levels
1	2	3	4

76. Ecological impact			
Will have an adverse impact on surrounding biodiversity	Do not know the effects on surrounding biodiversity	Will not have any appreciable effects on surrounding biodiversity	Will enhance surrounding biodiversity
1	2	3	4

77. Respect for natural environment			
Will weaken traditional values of respect for the natural environment	Do not know the effects on traditional values of respect for the natural environment	Will not have any appreciable effects on traditional values of respect for the natural environment	Will strengthen traditional values of respect for the natural environment
1	2	3	4

78. Competition over water			
Will result in increased competition over water	Do not know the effects on competition over water	Will not have any appreciable effects on competition over water	Will result in reduced competition over water
1	2	3	4

79. Water quality			
Will decline the quality of water for domestic consumption	Do not know the effects on the quality of water for domestic consumption	Will not have any appreciable effects on quality of water for domestic consumption	Will result in an improvement in the quality of water for domestic consumption
1	2	3	4

80. Water demand			
Will increase the demand for water supply for agricultural purposes	Do not know the effects on the demand for water supply for agricultural purposes	Will not have any appreciable effects on the demand for water supply for agricultural purposes	Will decrease the demand for water supply for agricultural purposes
1	2	3	4

81. Water pollution			
Will increase levels of water pollution in the watershed	Do not know the effects on levels of water pollution in the watershed	Will not have any appreciable effects on levels of water pollution in the watershed	Will decrease levels of water pollution in the watershed
1	2	3	4

82. Employment			
Will result in local unemployment	Do not know if local employment will be generated	Will not have any impact on local employment	Will generate local employment
1	2	3	4

83. Equity			
Will deteriorate rural equity	Not sure if it will deteriorate rural equity	Will not have any impact on rural equity	Will improve rural equity
1	2	3	4

84. Insurance			
Will discontinue demand-based livestock insurance system	Not sure if it will introduce demand-based livestock insurance system	Will not introduce demand-based livestock insurance system	Will introduce demand-based livestock insurance system
1	2	3	4

4. Ecological Diversity and Resilience

85. Air pollution			
Will deteriorate air quality	Not sure if it will deteriorate air quality	Will not deteriorate air quality	Will improve air quality
1	2	3	4

86. Air (supply side)			
Will considerably deteriorate quality and quantity of clean air	Not sure if it will deteriorate quality and quantity of clean air	Will not deteriorate quality and quantity of clean air	Will considerably improve quality and quantity of clean air
1	2	3	4

87. Air (demand side)			
Will increase consumption of clean air	Not sure if it will increase consumption of clean air	Will not increase consumption of clean air	Will decrease consumption of clean air
1	2	3	4

88. Global warming and climate change (activity and life habits)			
Will add to global warming	Not sure if it will add to global warming	Will not add to global warming	Will help prevent global warming
1	2	3	4

89. Water pollution			
Will increase sources of water pollution such as chemical fertilizers, pesticides, insecticides, fungicides, herbicides	Not sure if it will increase sources of water pollution such as chemical fertilizers, pesticides, insecticides, fungicides, herbicides	Will not increase sources of water pollution such as chemical fertilizers, pesticides, insecticides, fungicides, herbicides	Will prevent sources of water pollution such as chemical fertilizers, pesticides, insecticides, fungicides, herbicides
1	2	3	4

90. Water pollution2			
Will increase sources of water pollution such as washing of cloths,	Not sure if it will increase sources of water pollution such	Will not increase sources of water pollution such as	Will decrease sources of water pollution such as washing of
1	2	3	4

garbage dumping, automobile workshops etc	as washing of cloths, garbage dumping, automobile workshops etc	washing of cloths, garbage dumping, automobile workshops etc	cloths, garbage dumping, automobile workshops etc
1	2	3	4

91. Water sources

Will result in loss or depletion of water sources like spring, fountains, lakes, springs, rivers	Not sure if it will result in loss or depletion of water sources like spring, fountains, lakes, springs, rivers	Will not result in loss or depletion of water sources like spring, fountains, lakes, springs, rivers	Will conserve water sources like spring, fountains, lakes, springs, rivers
1	2	3	4

92. Water (supply side)

Will reduce quantity and quality of water supply (for home, agriculture and industries)	Not sure if it will reduce quantity and quality of water supply (for home, agriculture and industries)	Will not reduce scarcity of quantity and quality of water supply (for home, agriculture and industries)	Will increase quantity and quality of water supply (for home, agriculture and industries)
1	2	3	4

93. Water (demand side)

Will increase demand for more water for home, agriculture and industries	Not sure if it will increase demand for more water for home, agriculture and industries	Will not increase demand for more water for home, agriculture and industries	Will decrease demand for more water for home, agriculture and industries
1	2	3	4

94. Land (supply side)

Will decrease quantity of land available for farming	Not sure if it will decrease quantity of land available for farming	Will not decrease quantity of land available for farming	Will increase quantity of land available for farming
1	2	3	4

95. Land (demand side)			
Will increase demand for more land for cultivation, construction and industries	Not sure if it will increase demand for more land for cultivation, construction and industries	Will not increase demand for more land for cultivation, construction and industries	Will decrease demand for more land for cultivation, construction and industries
1	2	3	4

96. Manure			
Will encourage use of chemical fertilizers	Not sure if use of chemical fertilizers will be encourage	Will not encourage use of chemical fertilizers	Will encourage use of manures
1	2	3	4

97. Forests (supply side)			
Will deplete forests	Not sure if it will result in depletion of forests	Will not result in depletion of forests	Will conserve forests
1	2	3	4

98. Forests (demand side)			
Will result in increased consumption of forest resources	Not sure of it will result in increased consumption of forest resources	Will not result in increased consumption of forest resources	Will result in decreased consumption of forest resources
1	2	3	4

99. Forest fire			
Will increase incidence of forest fire	Not sure of it will increase incidence of forest fire	Will not increase incidence of forest fire	Will decrease incidence of forest fire
1	2	3	4

100. Land degradation			
Will degrade land	Not sure if it will degrade land	Will not degrade land	Will improve land
1	2	3	4

--	--	--	--

101. Diversity1: crops			
Will discourage a diversity of crops	Not sure if it will discourage a diversity of crops	Will not discourage a diversity of crops	Will encourage a diversity of crops
1	2	3	4

102. Diversity2: animals			
Will discourage a diversity of animals	Not sure if it will discourage a diversity of animals	Will not discourage a diversity of animals	Will encourage a diversity of animals
1	2	3	4

103. Diversity3: trees			
Will discourage a diversity of trees	Not sure if it will discourage a diversity of trees	Will not discourage a diversity of trees	Will encourage a diversity of trees
1	2	3	4

104. Diversity4: fruits			
Will discourage a diversity of fruits	Not sure if it will discourage a diversity of fruits	Will not discourage a diversity of fruits	Will encourage a diversity of fruits
1	2	3	4

105. Diversity5: vegetable			
Will discourage a diversity of vegetables	Not sure if it will discourage a diversity of vegetables	Will not discourage a diversity of vegetables	Will encourage a diversity of vegetables
1	2	3	4

106. Abodes of deities and spirits			
Will destroy natural bodies that are considered to be abodes of deities and spirits	Not sure if it will destroy natural bodies that are considered to be abodes of deities and spirits	Will not destroy natural bodies that are considered to be abodes of deities and spirits	Will preserve natural bodies that are considered to be abodes of deities and spirits

1	2	3	4
----------	----------	----------	----------

107. Access to natural resources			
Will restrict people's traditional access to natural resources	Not sure if it will restrict people's traditional access to natural resources	Will not restrict people's traditional access to natural resources	Will facilitate people's traditional access to natural resources
1	2	3	4

108. Indigenous resource management			
Will lead to loss of traditional natural resource management knowledge and institutions	Not sure if it will promote and preserve traditional natural resource management knowledge and institutions	Will not promote and preserve traditional natural resource management knowledge and institutions	Will lead to loss of traditional natural resource management knowledge and institutions
1	2	3	4

109. Natural disaster			
Will increase risks of natural disasters like flood and landslides	Not sure if it will increase risks of natural disasters like flood and landslides	Will not increase risks of natural disasters like flood and landslides	Will decrease risks of natural disasters like flood and landslides
1	2	3	4

110. Household utensils			
Will discourage use of locally made household utensils	Not sure if it will discourage the use of locally-made household utensils	Will not discourage the use of locally-made household utensils	Will encourage the use of locally-made household utensils
1	2	3	4

111. Fuel wood consumption			
Will increase consumption of wood for cooking	Not sure if it will increase consumption of wood for cooking	Will not increase consumption of fuel wood	Will promote electricity and LPG for cooking
1	2	3	4

112. Bukhari wood consumption			
Will increase consumption of Bukhari wood	Not sure if it will increase consumption of Bukhari wood	Will not increase consumption of Bukhari wood	Will encourage electrical appliances for heating houses
1	2	3	4

113. Waste disposal			
Will discourage disposal of wastes (bio-degradable and non-biodegradable wastes)	Not sure if it will discourage disposal of wastes (bio-degradable and non-biodegradable wastes)	Will not discourage disposal of wastes (bio-degradable and non-biodegradable wastes)	Will create a culture of disposing wastes
1	2	3	4

114. Waste1: waste			
Will encourage a lifestyle and consumption pattern that increase waste production	Not sure if it will encourage a lifestyle and consumption pattern that increase waste production	Will not encourage a lifestyle and consumption pattern that increase waste production	Will discourage a lifestyle and consumption pattern that increase waste production
1	2	3	4

115. Waste2: plastic			
Will increase production of plastic waste	Not sure if it will increase production of plastic waste	Will not increase production of plastic waste	Will decrease production of plastic waste
1	2	3	4

116. Waste3: paper			
Will increase production of paper waste	Not sure if it will increase production of paper waste	Will not increase production of paper waste	Will discourage of consumption and wastage of paper
1	2	3	4

117. Waste4: glass			
Will increase production of glass waste	Not sure if it will increase production of glass waste	Will not increase production of glass waste	Will discourage consumption of glass

1	2	3	4
----------	----------	----------	----------

118. Waste5: metal			
Will increase production of metal waste	Not sure if it will increase production of metal waste	Will not increase production of metal waste	Will decrease production of metal waste
1	2	3	4

119. Waste6: vegetable			
Will increase production of vegetable waste	Not sure if it will increase production of vegetable waste	Will not increase production of vegetable waste	Will decrease production of vegetable waste
1	2	3	4

120. Scrap industry			
Will discourage scrap industry	Not sure if it will discourage scrap-dealer industry	Will not discourage scrap industry	Will increase number of scrap dealers
1	2	3	4

121. Recycling industry			
Will discourage recycling industry	Not sure if it will discourage recycling industry	Will not discourage recycling industry	Will encourage recycling industry
1	2	3	4

122. Automobile use			
Will increase use of automobiles	Not sure if it will increase use of automobiles	Will not increase use of automobiles	Will decrease use of automobiles
1	2	3	4

123. Alternative transport			
Will discourage walking to work and shops	Not sure if it will discourage walking to work and shops	Will not discourage walking to work and shops	Will promote walking to work and shops

1	2	3	4
----------	----------	----------	----------

5. Living Standard

124. Employment			
Will decrease opportunities for employment	Do not know the effects on opportunities for employment	Will not have any appreciable effects on opportunities for employment	Will increase opportunities for employment
1	2	3	4

125. Financial security			
Will result in decreased levels of financial security	Do not know the effects on levels of financial security	Will not have any appreciable effects on levels of financial security	Will result in increased levels of financial security
1	2	3	4

126. Income			
Will result in a net decrease in income levels	Do not know the effects on income generation	Will not have any appreciable effects on income generation	Will result in a net increase in income levels
1	2	3	4

127. Income distribution			
Will result in a less equal distribution of income	Do not know the effects on the distribution of income	Will not have any appreciable effects on the distribution of income	Will result in a more equal distribution of income
1	2	3	4

128. Income bias			
Will bias outcome toward higher income groups	Do not know the effects on income bias	Will not have any appreciable effects on income bias	Will bias outcome toward lower income groups
1	2	3	4

129. Urban bias			
Will bias outcome toward urban groups	Do not know the effects on urban bias	Will not have any appreciable effects on urban bias	Will bias outcome toward rural groups

1	2	3	4
---	---	---	---

130. Savings

Will result in a decrease in potential savings	Do not know the effects on potential savings	Will not have any appreciable effects on potential savings	Will result in an increase in potential savings
1	2	3	4

131. Debt

Will result in a net decrease in financial debt within the population	Do not know the effects on financial debt within the population	Will not have any appreciable effects on financial debt within the population	Will result in a net increase in financial debt within the population
1	2	3	4

132. House ownership

Will favour an increase in the number of people living in rented residences	Do not know the effects on the number of people in owned or rented residences	Will not have any appreciable effects on the number of people in owned or rented residences	Will favour an increase in the number of people living in owned residences
1	2	3	4

133. Affordable housing

Will decrease opportunities to obtain affordable housing	Do not know the effects on opportunities to obtain affordable housing	Will not have any appreciable effects on opportunities to obtain affordable housing	Will increase opportunities to obtain affordable housing
1	2	3	4

134. Transport

Will decrease availability of affordable and effective public transportation	Do not know the effects on the availability of affordable and effective public transportation	Will not have any appreciable effects on the availability of affordable and effective public transportation	Will increase availability of affordable and effective public transportation
1	2	3	4

135. Housing adequacy			
Will decrease opportunities for households to obtain housing with adequate number of rooms	Do not know the effects on opportunities for households to obtain housing with adequate number of rooms	Will not have any appreciable effects on opportunities for households to obtain housing with adequate number of rooms	Will increase opportunities for households to obtain housing with adequate number of rooms
1	2	3	4

136. Housing quality			
Will decrease opportunities to obtain affordable housing	Do not know the effects on opportunities to obtain affordable housing	Will not have any appreciable effects on opportunities to obtain affordable housing	Will increase opportunities to obtain affordable housing
1	2	3	4

137. Stress			
Will decrease levels of stress in the population	Do not know the effects on levels of stress in the population	Will not have any appreciable effects on levels of stress in the population	Will increase levels of stress in the population
1	2	3	4

138. Leisure time			
Will decrease opportunities to spend time with family and friends	Do not know the effects on opportunities to spend time with family and friends	Will not have any appreciable effects on opportunities to spend time with family and friends	Will increase opportunities to spend time with family and friends
1	2	3	4

139. Sick and elderly			
Will result in a reduced ability for households to care for the sick and elderly	Do not know the effects on the ability for households to care for the sick and elderly	Will not have any appreciable effects on the ability for households to care for the sick and elderly	Will result in an enhanced ability for households to care for the sick and elderly
1	2	3	4

140. Childcare			
Will result in a reduced ability for household members to participate in childcare	Do not know the effects on the ability for household members to participate in childcare	Will not have any appreciable effects on the ability for household members to participate in childcare	Will result in an enhanced ability for household members to participate in childcare
1	2	3	4

141. Community participation			
Will decrease opportunities to participate in community activities and volunteerism	Do not know the effects on opportunities to participate in community activities and volunteerism	Will not have any appreciable effects on opportunities to participate in community activities and volunteerism	Will increase opportunities to participate in community activities and volunteerism
1	2	3	4

142. Religious participation			
Will decrease opportunities to participate in religious activities	Do not know the effects on opportunities to participate in religious activities	Will not have any appreciable effects on opportunities to participate in religious activities	Will increase opportunities to participate in religious activities
1	2	3	4

143. Recreation			
Will decrease opportunities to participate in sports and recreation	Do not know the effects on opportunities to participate in sports and recreation	Will not have any appreciable effects on opportunities to participate in sports and recreation	Will increase opportunities to participate in sports and recreation
1	2	3	4

144. Air quality			
Will result in a decline in urban air quality	Do not know the effects on urban air quality	Will not have any appreciable effects on urban air quality	Will result in an improvement in urban air quality
1	2	3	4

145. Drinking water			
Will decrease availability and quality of safe drinking water	Do not know the effects on the availability and quality of safe drinking water	Will not have any appreciable effects on the availability and quality of safe drinking water	Will increase availability and quality of safe drinking water
1	2	3	4

146. Nutrition			
Will result in a decline in nutritionally balanced dietary intake	Do not know the effects on nutritionally balanced dietary intake	Will not have any appreciable effects on nutritionally balanced dietary intake	Will result in an improvement in nutritionally balanced dietary intake
1	2	3	4

147. Occupational health			
Will decrease levels of occupational safety and health	Do not know the effects on levels of occupational safety and health	Will not have any appreciable effects on levels of occupational safety and health	Will increase levels of occupational safety and health
1	2	3	4

6. Trade and Manufacturing

148. Regional trade			
Will favour inter-regional trade over intra-regional trade	Do not know the effects on regional trade	Will not have any appreciable effects on regional trade	Will favour intra-regional trade over inter-regional trade
1	2	3	4

149. Local trade			
Will diminish the viability of local trade	Do not know the effects on the viability of local trade	Will not have any appreciable effects on the viability of local trade	Will enhance the viability of local trade
1	2	3	4

150. Agricultural exports			
Will result in limited diversification of agricultural exports	Do not know the effects on the diversification of agricultural exports	Will not have any appreciable effects on the diversification of agricultural exports	Will result in increased diversification of agricultural exports
1	2	3	4

151. Manufacturing exports			
Will result in limited diversification of manufacturing exports	Do not know the effects on the diversification of manufacturing exports	Will not have any appreciable effects on the diversification of manufacturing exports	Will result in increased diversification of manufacturing exports
1	2	3	4

152. Manufacturing materials			
Will favour imported manufacturing raw materials over domestic ones	Do not know the effects on domestic versus imported manufacturing materials	Will not have any appreciable effects on domestic versus imported manufacturing materials	Will favour domestic manufacturing raw materials over imported ones
1	2	3	4

153. Construction materials			
Will favour imported construction materials over domestic ones	Do not know the effects on domestic versus imported construction materials	Will not have any appreciable effects on domestic versus imported construction materials	Will favour domestic construction materials over imported construction materials
1	2	3	4

154. Trade transport			
Will result in a high transportation impact	Do not know the effects on transportation impact	Will not have any appreciable effects on transportation impact	Will result in lowered transportation impact
1	2	3	4

155. Packaging			
Will increase heavily packaged imports	Do not know the effects on heavily packaged imports	Will not have any appreciable effects on heavily packaged imports	Will decrease heavily packaged imports
1	2	3	4

156. Domestic production			
Will diminish the viability of domestic production	Do not know the effects on the viability of domestic production	Will not have any appreciable effects on the viability of domestic production	Will enhance the viability of domestic production
1	2	3	4

157. Decentralisation			
Will result in limited decentralisation of economic activity	Do not know the effects on the decentralisation of economic activity	Will not have any appreciable effects on the decentralisation of economic activity	Will result in greater decentralisation of economic activity
1	2	3	4

158. Producer returns			
Will decrease the percentage of returns to the primary producer	Do not know the effects on the percentage of returns to the primary	Will not have any appreciable effects on the percentage of returns to the primary	Will increase the percentage of returns to the primary producer

	producer	producer	
1	2	3	4

159. Producer control			
Will decrease the degree of producer control over marketing and export	Do not know the effects on the degree of producer control over marketing and export	Will not have any appreciable effects on the degree of producer control over marketing and export	Will increase the degree of producer control over marketing and export
1	2	3	4

160. Product innovation			
Will discourage innovation in products	Do not know the effects on innovation in products	Will not have any appreciable effects on innovation in products	Will promote innovation in products
1	2	3	4

161. Process innovation			
Will discourage innovation in processes	Do not know the effects on innovation in processes	Will not have any appreciable effects on innovation in processes	Will promote innovation in processes
1	2	3	4

162. Architecture			
Will decrease construction based on indigenous styles of architecture and design	Do not know the effects on construction based on indigenous styles of architecture and design	Will not have any appreciable effects on construction based on indigenous styles of architecture and design	Will increase construction based on indigenous styles of architecture and design
1	2	3	4

163. Weaving			
Will decrease the economic viability of weaving (<i>thagzo</i>)	Do not know the effects on economic viability of weaving (<i>thagzo</i>)	Will not have any appreciable effects on economic viability of weaving (<i>thagzo</i>)	Will increase the economic viability of weaving (<i>thagzo</i>)
1	2	3	4

164. Embroidery			
Will decrease the economic viability of embroidery (<i>Tshenzo</i>)	Do not know the effects on economic viability of embroidery (<i>Tshenzo</i>)	Will not have any appreciable effects on economic viability of embroidery (<i>Tshenzo</i>)	Will increase the economic viability of embroidery (<i>Tshenzo</i>)
1	2	3	4

165. Painting			
Will decrease the economic viability of painting (<i>lhazo</i>)	Do not know the effects on the economic viability of painting (<i>lhazo</i>)	Will not have any appreciable effects on the economic viability of painting (<i>lhazo</i>)	Will increase the economic viability of painting (<i>lhazo</i>)
1	2	3	4

166. Carpentry			
Will decrease the economic viability of carpentry (<i>Shingzo</i>)	Do not know the effects on the economic viability of carpentry (<i>Shingzo</i>)	Will not have any appreciable effects on the economic viability of carpentry (<i>Shingzo</i>)	Will increase the economic viability of carpentry (<i>Shingzo</i>)
1	2	3	4

167. Carving			
Will decrease the economic viability of carving (<i>parzo</i>)	Do not know the effects on the economic viability of carving (<i>parzo</i>)	Will not have any appreciable effects on the economic viability of carving (<i>parzo</i>)	Will increase the economic viability of carving (<i>parzo</i>)
1	2	3	4

168. Sculpture			
Will decrease the economic viability of sculpture (<i>jingzo</i>)	Do not know the effects on the economic viability of sculpture (<i>jingzo</i>)	Will not have any appreciable effects on the economic viability of sculpture (<i>jingzo</i>)	Will increase the economic viability of sculpture (<i>jingzo</i>)
1	2	3	4

169. Casting			
Will decrease the	Do not know the	Will not have any	Will increase the

economic viability of casting (<i>lugzo</i>)	effects on the economic viability of casting (<i>lugzo</i>)	appreciable effects on the economic viability of casting (<i>lugzo</i>)	economic viability of casting (<i>lugzo</i>)
1	2	3	4

170. Blacksmithing

Will decrease the economic viability of blacksmithing (<i>garzo</i>)	Do not know the effects on the economic viability of blacksmithing (<i>garzo</i>)	Will not have any appreciable effects on the economic viability of blacksmithing (<i>garzo</i>)	Will increase the economic viability of blacksmithing (<i>garzo</i>)
1	2	3	4

171. Bamboo works

Will decrease the economic viability of bamboo works (<i>tshazo</i>)	Do not know the effects on decrease the economic viability of bamboo works (<i>tshazo</i>)	Will not have any appreciable effects on decrease the economic viability of bamboo works (<i>tshazo</i>)	Will increase decrease the economic viability of bamboo works (<i>tshazo</i>)
1	2	3	4

172. Gold and silver-smithing

Will decrease the economic viability of gold and silver-smithing (<i>serzo</i> and <i>nguelzo</i>)	Do not know the effects on the economic viability of gold and silver-smithing (<i>serzo</i> and <i>nguelzo</i>)	Will not have any appreciable effects on the economic viability of gold and silver-smithing (<i>serzo</i> and <i>nguelzo</i>)	Will increase the economic viability of gold and silver-smithing (<i>serzo</i> and <i>nguelzo</i>)
1	2	3	4

173. Masonry

Will decrease the economic viability of masonry (<i>dozo</i>)	Do not know the effects on the economic viability of masonry (<i>dozo</i>)	Will not have any appreciable effects on the economic viability of masonry (<i>dozo</i>)	Will increase the economic viability of masonry (<i>dozo</i>)
1	2	3	4

174. Leather works			
Will decrease the economic viability of leather works (<i>kozo</i>)	Do not know the effects on the economic viability of leather works (<i>kozo</i>)	Will not have any appreciable effects on the economic viability of leather works (<i>kozo</i>)	Will increase the economic viability of leather works (<i>kozo</i>)
1	2	3	4

175. Paper-making			
Will decrease the economic viability of paper-making (<i>dezo</i>)	Do not know the effects on the economic viability of paper-making (<i>dezo</i>)	Will not have any appreciable effects on the economic viability of paper-making (<i>dezo</i>)	Will increase the economic viability of paper-making (<i>dezo</i>)
1	2	3	4

176. Monopolization			
Will lead to the monopolization of industries	Do not know the effects on the monopolization of industries	Will not have any appreciable effects on the monopolization of industries	Will avert the monopolization of industries
1	2	3	4

177. Business formation			
Will inhibit the formation of cooperative business ventures	Do not know the effects on the formation of cooperative business ventures	Should not have any appreciable effects on the formation of cooperative business ventures	Will increase the formation of cooperative business ventures
1	2	3	4

178. Human resources for technology			
Will decrease the number of citizens trained in technology and machinery	Do not know the effects on the number of citizens trained in technology and machinery	Will not have any appreciable effects on the number of citizens trained in technology and machinery	Will increase the number of citizens trained in technology and machinery
1	2	3	4

179. Human resources for business management			
Will decrease the number of citizens	Do not know the effects on the number	Will not have any appreciable effects on	Will increase the number of citizens

trained in business management	of citizens trained in business management	the number of citizens trained in business management	trained in business management
1	2	3	4

180. Human resources for GNH

Will decrease the integration of GNH values with human resource development	Do not know the effects on the integration of GNH values with human resource development	Will not have any appreciable effects on the integration of GNH values with human resource development	Will increase the integration of GNH values with human resource development
1	2	3	4

181. Food security

Will decrease domestic food security	Do not know the effects on domestic food security	Will not have any appreciable effects on domestic food security	Will increase domestic food security
1	2	3	4

182. Genetically engineered goods

Will increase imports of genetically engineered goods	Do not know the effects on the import of genetically engineered goods	Will not have any appreciable effects on the import of genetically engineered goods	Will decrease imports of genetically engineered goods
1	2	3	4

183. Local food consumption

Will diminish the quality of domestic food consumption	Do not know the effects on the quality of domestic food consumption	Will not have any appreciable effects on the quality of domestic food consumption	Will enhance the quality of domestic food consumption
1	2	3	4

184. Organic trade

Will favour agrochemical import/export over organic agricultural	Do not know the effects on agricultural organic versus agrochemical trade	Will not have any appreciable effects on agricultural organic versus agrochemical	Will favour organic agricultural import/export over agrochemical
--	---	---	--

products		trade	products
1	2	3	4

185. Health impact			
Will favour the import of food products with negative health impacts over those with higher nutritional value	Do not know the effects on the health impact of food imports	Will not have any appreciable effects on the health impact of food imports	Will favour the import of higher nutrition food products over those with negative health impacts
1	2	3	4

186. Employment			
Will decrease opportunities for employment	Do not know the effects on opportunities for employment	Will not have any appreciable effects on opportunities for employment	Will increase opportunities for employment
1	2	3	4

187. Employment benefits			
Will decrease security provided by employment benefits	Do not know the effects on security provided by employment benefits	Will not have any appreciable effects on security provided by employment benefits	Will increase security provided by employment benefits
1	2	3	4

188. Income			
Will result in a net decrease in income levels	Do not know the effects on income generation	Will not have any appreciable effects on income generation	Will result in a net increase in income levels
1	2	3	4

189. Income distribution			
Will result in a less equal distribution of income	Do not know the effects on the distribution of income	Will not have any appreciable effects on the distribution of income	Will result in a more equal distribution of income
1	2	3	4

190. Income bias			
Will bias outcome toward higher income groups	Do not know the effects on income bias	Will not have any appreciable effects on income bias	Will bias outcome toward lower income groups
1	2	3	4

191. Urban bias			
Will bias outcome toward urban groups	Do not know the effects on urban bias	Will not have any appreciable effects on urban bias	Will bias outcome toward rural groups
1	2	3	4

192. Leisure time			
Will decrease opportunities to spend time with family and friends	Do not know the effects on opportunities to spend time with family and friends	Will not have any appreciable effects on opportunities to spend time with family and friends	Will increase opportunities to spend time with family and friends
1	2	3	4

193. Sick and elderly			
Will result in a reduced ability for households to care for the sick and elderly	Do not know the effects on the ability for households to care for the sick and elderly	Will not have any appreciable effects on the ability for households to care for the sick and elderly	Will result in an enhanced ability for households to care for the sick and elderly
1	2	3	4

194. Childcare			
Will result in a reduced ability for household members to participate in childcare	Do not know the effects on the ability for household members to participate in childcare	Will not have any appreciable effects on the ability for household members to participate in childcare	Will result in an enhanced ability for household members to participate in childcare
1	2	3	4

195. Stress			
Will lead to increased levels of stress in the	Do not know the effects on levels of	Will not have any appreciable effects on	Will lead to decreased levels of stress in the

population	stress in the population	levels of stress in the population	population
1	2	3	4

196. Waste production			
Will increase the quantity of waste produced	Do not know the effects on the quantity of waste produced	Will not have any appreciable effects on the quantity of waste produced	Will decrease the quantity of waste produced
1	2	3	4

197. Waste consumption			
Will encourage a lifestyle and consumption patterns that increase waste production	Do not know the effects on lifestyle and consumption patterns that increase waste production	Will not have any appreciable effects on the lifestyle and consumption patterns that increase waste production	Will discourage a lifestyle and consumption patterns that increase waste production
1	2	3	4

198. Scrap industry			
Will decrease the number of scrap dealers	Not sure if it will impact the number of scrap dealers	Will not have any appreciable effects on the number of scrap dealers	Will increase the number of scrap dealers
1	2	3	4

199. Natural resource scarcity			
Will increase local natural resource scarcity	Do not know the effects on local natural resource scarcity	Will not have any appreciable effects on local natural resource scarcity	Will decrease local natural resource scarcity
1	2	3	4

200. Sustainable resource use			
Will result in the use of less sustainable resources	Do not know the effects on the use of more sustainable resources	Should not have any appreciable effects on the use of more sustainable resources	Will result in the use of more sustainable resources

1	2	3	4
---	---	---	---

201. Water pollution			
Will increase levels of water pollution in the watershed	Do not know the effects on levels of water pollution in the watershed	Will not have any appreciable effects on levels of water pollution in the watershed	Will decrease levels of water pollution in the watershed
1	2	3	4

202. Air pollution			
Will increase levels of air pollution	Do not know the effects on levels of air pollution	Will not have any appreciable effects on levels of air pollution	Will decrease levels of air pollution
1	2	3	4

203. Soil contamination			
Will increase levels of soil contamination	Do not know the effects on levels of soil contamination	Will not have any appreciable effects on levels of soil contamination	Will decrease levels of soil contamination
1	2	3	4

204. Farmland availability			
Will encroach on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Do not know the effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will not have any appreciable effects on farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>	Will increase farmlands: <i>kamzhing</i> , <i>chhuzhing</i> and <i>pangzhing</i>
1	2	3	4

205. Land degradation			
Will increase soil erosion and land degradation	Do not know the effects on soil erosion and land degradation	Will not have any appreciable effects on soil erosion and land degradation	Will reduce soil erosion and land degradation
1	2	3	4

7. Education

206. National employment			
Will decrease the applicability of skills and knowledge to national employment needs	Do not know the effects on the applicability of skills and knowledge to national employment needs	Will not have any appreciable effects on the applicability of skills and knowledge to national employment needs	Will increase the applicability of skills and knowledge to national employment needs
1	2	3	4

207. Rural employment			
Will reduce the applicability of skills and knowledge to rural employment	Do not know the effects on the applicability of skills and knowledge to rural employment	Will not have any appreciable effects on the applicability of skills and knowledge to rural employment	Will reinforce the applicability of skills and knowledge to rural employment
1	2	3	4

208. Family relations			
Will weaken extended family relations	Do not know the effects on extended family relations	Will not have any appreciable effects on extended family relations	Will strengthen extended family relations
1	2	3	4

209. Financial burden			
Will decrease the economic security of the student's family	Do not know the effects on the economic security of the student's family	Will not have any appreciable effects on the economic security of the student's family	Will increase the economic security of the student's family
1	2	3	4

210. Community integrity			
Will weaken the integrity of communities	Do not know the effects on the integrity of communities	Will not have any appreciable effects on the integrity of communities	Will strengthen the integrity of communities
1	2	3	4

211. Education quality			
Will diminish the overall quality of education	Do not know the effects on the overall quality of education	Will not have any appreciable effects on the overall quality of education	Will improve the overall quality of education
1	2	3	4

212. Teaching quality			
Will diminish the quality of teaching	Do not know the effects on the quality of teaching	Will not have any appreciable effects on the quality of teaching	Will improve the quality of teaching
1	2	3	4

213. Curriculum quality			
Will diminish the quality of the curriculum	Do not know the effects on the quality of the curriculum	Will not have any appreciable effects on the quality of the curriculum	Will improve the quality of the curriculum
1	2	3	4

214. Formal enrolment			
Will decrease the percentage of youth enrolled in the education system	Do not know the effects on the percentage of youth enrolled in the education system	Should not have any appreciable effects on the percentage of youth enrolled in the education system	Will increase the percentage of youth enrolled in the education system
1	2	3	4

215. Non-formal enrolment			
Will decrease the number of citizens enrolled in non-formal education	Do not know the effects on the number of citizens enrolled in non-formal education	Will not have any appreciable effects on the number of citizens enrolled in non-formal education	Will increase the number of citizens enrolled in non-formal education
1	2	3	4

216. Informal learning			
Will decrease opportunities for citizens to participate	Do not know the effects on opportunities for	Will not have any appreciable effects on opportunities for	Will increase opportunities for citizens to participate

in informal learning activities	citizens to participate in informal learning activities	citizens to participate in informal learning activities	in informal learning activities
1	2	3	4

217. Income equality			
Will favour educational opportunity for high income groups over low income groups	Do not know the effects on educational opportunity for income groups	Will not have any appreciable effects on educational opportunity for income groups	Will favour educational opportunity for low income groups over high income groups
1	2	3	4

218. Gender equality			
Will reduce balanced gender representation in education	Do not know the effects on balanced gender representation in education	Will not have any appreciable effects on balanced gender representation in education	Will improve balanced gender representation in education
1	2	3	4

219. Parental involvement			
Will decrease the amount of parental participation in the student's schooling	Do not know the effects on the amount of parental participation in the student's schooling	Will not have any appreciable effects on the amount of parental participation in the student's schooling	Will increase the amount of parental participation in the student's schooling
1	2	3	4

220. Motivation			
Will decrease the motivation of students to learn	Do not know the effects on the motivation of students to learn	Will not have any appreciable effects on the motivation of students to learn	Will increase the motivation of students to learn
1	2	3	4

221. Student performance			
Will decrease overall student performance	Do not know the effects on overall	Will not have any appreciable effects on	Will increase overall student performance

	student performance	overall student performance	
1	2	3	4

222. Science

Will decrease student performance in scientific subjects	Do not know the effects on student performance in scientific subjects	Will not have any appreciable effects on student performance in scientific subjects	Will increase student performance in scientific subjects
1	2	3	4

223. Mathematics

Will decrease student performance in mathematics	Do not know the effects on student performance in mathematics	Will not have any appreciable effects on mathematics	Will increase student performance in mathematics
1	2	3	4

224. Learning method

Will favour rote memorization over the competence to apply skills	Do not know the effects on the competence to apply skills over rote memorization	Will not have any appreciable effects on the competence to apply skills over rote memorization	Will favour the competence to apply skills over rote memorization
1	2	3	4

225. Bhutanese curriculum

Will favour imported curriculum content over Bhutanese sources	Do not know the effects on the source of curriculum content	Will not have any appreciable effects on the source of curriculum content	Will favour Bhutanese curriculum content over imported sources
1	2	3	4

226. Relevance

Will decrease the relevance of curriculum to the life of the average student	Do not know the effects on the relevance of curriculum to the life of the average student	Will not have any appreciable effects on the relevance of curriculum to the life of the average student	Will increase the relevance of curriculum to the life of the average student
--	---	---	--

1	2	3	4
---	---	---	---

227. Local teaching material

Will decrease the use of local social and physical environments as educational materials	Do not know the effects on the use of local social and physical environments as educational materials	Will not have any appreciable effects on the use of local social and physical environments as educational materials	Will increase the use of local social and physical environments as educational materials
1	2	3	4

228. Local knowledge

Will reduce the integration of local knowledge and practices into curriculum content	Do not know the effects on the integration of local knowledge and practices into curriculum content	Will not have any appreciable effects on the integration of local knowledge and practices into curriculum content	Will promote the integration of local knowledge and practices into curriculum content
1	2	3	4

229. Self-reflection

Will decrease the number of self-reflective exercises in the curriculum	Do not know the effects on the number of self-reflective exercises in the curriculum	Will not have any appreciable effects on the number of self-reflective exercises in the curriculum	Will increase the number of self-reflective exercises in the curriculum
1	2	3	4

230. GNH

Will decrease the curriculum content on GNH	Do not know the effects on the curriculum content on GNH	Will not have any appreciable effects on the curriculum content on GNH	Will increase the curriculum content on GNH
1	2	3	4

231. Meditation

Will decrease the integration of meditation practices in education	Do not know the effects on the integration of meditation practices	Will not have any appreciable effects on the integration of meditation practices	Will increase the integration of meditation practices in education
--	--	--	--

	in education	in education

Will result in an individual experiencing decreased level of disappearance	Not sure if it will result in an individual experiencing decreased level of disappearance	Will not result in an individual experiencing decreased level of disappearance	Will result in an individual experiencing increased level of disappearance
1	2	3	4

349. Emotion14: sadness			
Will result in an individual experiencing decreased level of sadness	Not sure if it will result in an individual experiencing decreased level of sadness	Will not result in an individual experiencing decreased level of sadness	Will result in an individual experiencing increased level of sadness
1	2	3	4

350. Emotion15: frustration			
Will result in an individual experiencing decreased level of frustration	Not sure if it will result in an individual experiencing decreased level of frustration	Will not result in an individual experiencing decreased level of frustration	Will result in an individual experiencing increased level of frustration
1	2	3	4

351. Stress			
Will increase stress of person	Not sure if it will increase stress of person	Will not increase stress of person	Will relieve stress of person

1	2	3	4
----------	----------	----------	----------

352. Stress1: Children's future

Will increase levels of stress because of concern over children's future	Not sure if it will increase levels of stress because of concern over children's future	Will not increase levels of stress because of concern over children's future	Will decrease levels of stress because of concern over children's future
1	2	3	4

353. Stress2: Financial pressure

Will increase levels of stress because of a financial pressure	Not sure if it will increase levels of stress because of a financial pressure	Will not increase levels of stress because of a financial pressure	Will decrease levels of stress because of a financial pressure
1	2	3	4

354. Stress3: Illness in family

Will increase levels of stress because of an illness in family	Not sure if it will increase levels of stress because of an illness in family	Will not increase levels of stress because of an illness in family	Will decrease levels of stress because of an illness in family
1	2	3	4

355. Stress4: Work

Will increase levels of stress because of work	Not sure if it will increase levels of stress because of work	Will not increase levels of stress because of work	Will decrease levels of stress because of work
1	2	3	4

356. Stress5: Threat to crops from wild animals

Will increase levels of stress because of threat to crops from wild animals	Not sure if it will increase levels of stress because of threat to crops from wild animals	Will not increase levels of stress because of threat to crops from wild animals	Will decrease levels of stress because of threat to crops from wild animals
	2	3	4

357. Stress6: Death in a family			
Will increase levels of stress because of a death in a family	Not sure if it will increase levels of stress because of a death in a family	Will not increase levels of stress because of a death in a family	Will decrease levels of stress because of a death in a family
1	2	3	4

358. Stress7: Errands			
Will increase levels of stress because of errands	Not sure if it will increase levels of stress because of errands	Will not increase levels of stress because of errands	Will decrease levels of stress because of errands
1	2	3	4

359. Stress8: Woola			
Will increase levels of stress because of <i>woola</i>	Not sure if it will increase levels of stress because of <i>woola</i>	Will not increase levels of stress because of <i>woola</i>	Will decrease levels of stress because of <i>woola</i>
1	2	3	4

360. Stress9: threat to crops from natural calamity			
Will increase levels of stress because of a threat to crops from a natural calamity	Not sure if it will increase levels of stress because of a threat to crops from a natural calamity	Will not increase levels of stress because of a threat to crops from a natural calamity	Will decrease levels of stress because of a threat to crops from a natural calamity
1	2	3	4

361. Stress10: family relations			
Will increase levels of stress because of family relations	Not sure if it will increase levels of stress because of family relations	Will not increase levels of stress because of family relations	Will decrease levels of stress because of family relations
1	2	3	4

362. Stress11: School work			
Will increase levels of	Not sure if it will	Will not increase	Will decrease levels

stress because of school work	increase levels of stress because of school work	levels of stress because of school work	of stress because of school work
1	2	3	4

363. Stress12: Disputes with neighbours

Will increase levels of stress because of disputes with neighbours	Not sure if it will increase levels of stress because of disputes with neighbours	Will not increase levels of stress because of disputes with neighbours	Will decrease levels of stress because of disputes with neighbours
1	2	3	4

364. Stress13: Alcohol abuse of family member(s)

Will increase levels of stress because of alcohol abuse of family member(s)	Not sure if it will increase levels of stress because of alcohol abuse of family member(s)	Will not increase levels of stress because of alcohol abuse of family member(s)	Will decrease levels of stress because of alcohol abuse of family member(s)
1	2	3	4

365. Stress14: Drug abuse of family member(s)

Will increase levels of stress because of drug abuse of family member(s)	Not sure if it will increase levels of stress because of drug abuse of family member(s)	Will not increase levels of stress because of drug abuse of family member(s)	Will decrease levels of stress because of drug abuse of family member(s)
1	2	3	4

366. Family relation

Will deteriorate family life/relations	Not sure if it will deteriorate family life/relations	Will not deteriorate family life/relations	Will improve family life/relations
1	2	3	4

367. Religious activity

Will result in discontinuation of or decreased spiritual	Not sure if it will result in discontinuation of or	Will not result in discontinuation of or decreased spiritual	Will contribute to continuation of or increased spiritual
--	---	--	---

activity	decreased spiritual activities	activities	activities
	2	3	4

12. Cultural Diversity and Resilience

368. Architecture: designs			
Will use non-traditional designs	Not sure whether traditional or modern designs will be used	Will not have much negative impact on traditional designs	Will use traditional designs
1	2	3	4

369. Architecture: methods			
Will use non-traditional methods	Not sure whether traditional or modern methods will be used	Will not have much negative impact on traditional methods	Will use traditional methods
1	2	3	4

370. Architecture: materials			
Will use non-traditional materials	Not sure whether traditional or modern materials will be used	Will not have much negative impact on traditional materials	Will use traditional materials
1	2	3	4

371. Construction site			
Will be constructed on agricultural lands	Not sure if it will be constructed on agricultural lands	Will not be constructed on agricultural lands	Will be constructed on hill slopes
1	2	3	4

372. Zorig chusum1: weaving (thagzo)			
Will not promote weaving	Not sure whether weaving will be promoted	Will not adversely affect promotion of weaving	Will definitely promote weaving
1	2	3	4

373. Zorig chusum2: embroidery (tshenzo)			
Will not promote embroidery	Not sure whether embroidery will be promoted	Will not adversely affect promotion of embroidery	Will definitely promote embroidery
1	2	3	4

--	--	--	--

374. Zorig chusum3: painting (lhazo)			
Will not promote painting	Not sure whether painting will be promoted	Will not adversely affect promotion of painting	Will definitely promote painting
1	2	3	4

375. Zorig chusum4: carpentry (shingzo)			
Will not promote carpentry	Not sure whether carpentry will be promoted	Will not adversely affect promotion of carpentry	Will definitely promote carpentry
1	2	3	4

376. Zorig chusum5: carving (parzo)			
Will not promote carving	Not sure whether carving will be promoted	Will not adversely affect promotion of carving	Will definitely promote carving
1	2	3	4

377. Zorig chusum6: sculpture (jinzo)			
Will not promote sculpture	Not sure whether sculpture will be promoted	Will not adversely affect promotion of sculpture	Will definitely promote sculpture
1	2	3	4

378. Zorig chusum7: casting (lugzo)			
Will not promote casting	Not sure whether casting will be promoted	Will not adversely affect promotion of casting	Will definitely promote casting
1	2	3	4

379. Zorig chusum8: black-smithying (garzo)			
Will not promote black-smithying	Not sure whether black-smithying will be promoted	Will not adversely affect promotion of black-smithying	Will definitely promote black-smithying
1	2	3	4

380. Zorig chusum9: bamboo works (tshazo)			
Will not promote bamboo works	Not sure whether bamboo works will be promoted	Will not adversely affect promotion of bamboo works	Will definitely promote bamboo works
1	2	3	4

381. Zorig chusum10: gold-and silver-smithying (serzo and nguelzo)			
Will not promote gold-and silver-smithying	Not sure whether gold-and silver-smithying will be promoted	Will not adversely affect promotion of gold-and silver-smithying	Will definitely promote gold-and silver-smithying
1	2	3	4

382. Zorig chusum11: masonry (dozo)			
Will not promote masonry	Not sure whether masonry will be promoted	Will not adversely affect promotion of masonry	Will definitely promote masonry
1	2	3	4

383. Zorig chusum12: leather works (kozo)			
Will not promote leather works	Not sure whether leather works will be promoted	Will not adversely affect promotion of leather works	Will definitely promote leather works
1	2	3	4

384. Zorig chusum13: paper-making (dezo)			
Will not promote paper-making	Not sure whether paper-making will be promoted	Will not adversely affect promotion of paper-making	Will definitely promote paper-making
1	2	3	4

385. Calendrical local festivals			
Will result in discontinuation of calendrical local festivals	Not sure whether calendrical local festivals will be discontinued	Will not result in discontinuation of calendrical local festivals	Will increase continuation of calendrical local festivals

1	2	3	4
----------	----------	----------	----------

386. Dzongkha1: simplify/make it user friendly

Will result in keeping Dzongkha as a difficult subject for students	Not sure if it will result in keeping Dzongkha as a difficult subject for students	Will not result in keeping Dzongkha as a difficult subject for students	Will simplify Dzongkha or make it user friendly
1	2	3	4

387. Dzongkha2: develop reading materials

Will result in reduced reading materials in Dzongkha	Not sure if it will result in reduced reading materials in Dzongkha	Will not result in reduced reading materials in Dzongkha	Will result in increased reading materials in Dzongkha
1	2	3	4

388. Dzongkha3: increase learning time

Will result in decreased Dzongkha learning time	Not sure if it will result in decreased Dzongkha learning time	Will not result in decreased Dzongkha learning time	Will result in increased Dzongkha learning time
1	2	3	4

389. Dzongkha4: compulsory subject

Will make Dzongkha secondary to other subjects in schools	Not sure if it will make Dzongkha secondary to other subjects in schools	Will not make Dzongkha secondary to other subjects in schools	Will make Dzongkha a compulsory subject at all levels of education
1	2	3	4

390. Dzongkha5: Dzongkha teacher shortage

Will result in decrease in shortage of Dzongkha teachers	Not sure if it will result in decrease in shortage of Dzongkha teachers	Will not result in decrease in shortage of Dzongkha teachers	Will result in increased number of Dzongkha teachers
1	2	3	4

391. Dzongkha6: ICTization of Dzongkha			
Will decrease ICTization of Dzongkha	Not sure if it will decreased ICTization of Dzongkha	Will not decreased ICTization of Dzongkha	Will increase ICTization of Dzongkha
1	2	3	4

392. Dzongkha7: standardize textbooks			
Will have negative impact on standardization of Dzongkha	Not sure if it will have negative impact on standardization of Dzongkha	Will not have negative impact on standardization of Dzongkha	Will have positive impact on standardization of Dzongkha
1	2	3	4

393. Dzongkha8: research and development			
Will discourage research and development of Dzongkha language	Not sure if it will discourage research and development of Dzongkha language	Will not discourage research and development of Dzongkha language	Will encourage research and development of Dzongkha language
1	2	3	4

394. Language2: mother tongue			
Will not promote mother tongue(s)	Not sure if it will promote mother tongue(s)	Will not have any negative impact on promotion of mother tongue(s)	Will help promote mother tongue(s)
1	2	3	4

395. Language3: other dialects			
Will not promote other Bhutanese dialects	Not sure if it will promote other Bhutanese dialects	Will not have any negative impact on promotion of other Bhutanese dialects	Will help promote other Bhutanese dialects
1	2	3	4

396. Traditional sports and games			
Will replace traditional sports and games	Do not know how it will affect traditional sports and games	Will not have any negative impact on traditional sports and	Will promote traditional sports and games

		games	
1	2	3	4

397. Cultural monuments and sites			
Will adversely affect preservation of national and local cultural monuments and sites	Do not know if it will adversely affect preservation of national and local cultural monuments and sites	Will not adversely affect preservation of national and local cultural monuments and sites	Will preserve national and local cultural monuments and sites
1	2	3	4

398. Knowledge and practice of cultural values:			
Will adversely affect knowledge of Bhutanese cultural values	Not sure if it will adversely affect knowledge of Bhutanese cultural values	Will not adversely affect knowledge of Bhutanese cultural values	Will promote knowledge of Bhutanese cultural values
1	2	3	4

399. Responsibility of superior to subordinate			
Will discourage responsibility of superior to subordinate's wellbeing	Not sure if it will discourage responsibility of superior to subordinate's wellbeing	Will not discourage responsibility of superior to subordinate's wellbeing	Will encourage responsibility of superior to subordinate's wellbeing
1	2	3	4

400. Damtsig between parent and child			
Will dilute <i>damtsig</i> between <i>parent and child</i>	Not sure if it will dilute <i>damtsig</i> between <i>parent and child</i>	Will not dilute <i>damtsig</i> between <i>parent and child</i>	Will strengthen <i>damtsig</i> between <i>parent and child</i>
1	2	3	4

401. Damtsig between husband and wife			
Will dilute <i>damtsig</i> between <i>husband and</i>	Not sure if it will dilute <i>damtsig</i>	Will not dilute <i>damtsig</i> between	Will strengthen <i>damtsig</i> between

<i>wife</i>	<i>between husband and wife</i>	<i>husband and wife</i>	<i>husband and wife</i>
1	2	3	4

402. Damtsig between master and servant			
Will dilute <i>damtsig</i> between master and servant	Not sure if it will dilute <i>damtsig</i> between master and servant	Will not dilute <i>damtsig</i> between master and servant	Will strengthen <i>damtsig</i> between master and servant
1	2	3	4

403. Damtsig between teacher and student			
Will dilute <i>damtsig</i> teacher and student	Not sure if it will dilute <i>damtsig</i> teacher and student	Will not dilute <i>damtsig</i> teacher and student	Will strengthen <i>damtsig</i> teacher and student
1	2	3	4

404. Damtsig between king and subjects			
Will dilute <i>damtsig</i> between king and subjects	Not sure if it will dilute <i>damtsig</i> between king and subjects	Will not dilute <i>damtsig</i> between king and subjects	Will strengthen <i>damtsig</i> between king and subjects
1	2	3	4

405. Duty			
Will place desire above duty	Not sure if it will place desire above duty	Will not place desire above duty	Will place duty above desire
1	2	3	4

406. Co-operation			
Will privilege competition over cooperation	Not sure if it will privilege competition over cooperation	Will not privilege competition over cooperation	Will privilege cooperation over competition
1	2	3	4

407. Placing others before self			
Will place oneself before others to get ahead	Not sure if it will place oneself before others to get ahead	Will not place oneself before others to get ahead	Will place others before oneself to get ahead
1	2	3	4

408. Remonstrance			
Will discourage remonstrance (the duty to carefully and respectfully point out errors of elders or superior)	Not sure of it will discourage remonstrance	Will not discourage remonstrance	Will encourage remonstrance
1	2	3	4

409. Critical thinking			
Will discourage critical thinking	Do not know if it will discourage critical thinking	Will not discourage critical thinking	Will encourage critical thinking
1	2	3	4

410. Loyalty			
Will discourage loyalty to family, friends, community and country	Unsure if it will discourage loyalty to family, friends, community and country	Will not discourage loyalty to family, friends, community and country	Will encourage loyalty to family, friends, community and country
1	2	3	4

411. Alienation			
Will enhance a sense of alienation	Not sure if it will enhance a sense of alienation	Will not enhance a sense of alienation	Will develop network and relations
1	2	3	4

412. Inter-generational gap			
Will widen inter-generational gap	Not sure if it will widen inter-generational gap	Will not widen inter-generational gap	Will narrow inter-generational gap

1	2	3	4
----------	----------	----------	----------

413. Religious tolerance			
Will create religious intolerance	Not sure if it will create religious intolerance	Will not create religious intolerance	Will create religious tolerance
1	2	3	4

414. Family life			
Will discourage family life	Not sure if it will discourage family life	Will not discourage family life	Will encourage family life
1	2	3	4

415. Friendship			
Will destroy friendship	No sure if it will destroy friendship	Will not destroy friendship	Will build friendship
1	2	3	4

416. Generosity			
Will discourage generosity	Not sure if it will discourage generosity	Will not discourage generosity	Will encourage generosity
1	2	3	4

417. Spiritual faith			
Will result in a loss of spiritual faith	Not sure if it will result in a loss of spiritual faith	Will not result in a loss of spiritual faith	Will increase spiritual faith
1	2	3	4

418. Compassion			
Will discourage a quality of compassion	Not sure of if it will discourage a quality of compassion	Will not discourage a quality of compassion	Will make people more compassionate
1	2	3	4

419. Self-development			
Will discourage self-development	Not sure if it will discourage self-development	Will not discourage self-development	Will promote self-development
1	2	3	4

420. Responsibility			
Will make people irresponsible	Not sure if it will make people irresponsible	Will not make people irresponsible	Will make people more responsible
1	2	3	4

421. Freedom			
Will take away freedom	Not sure if it will take away freedom	Will not take away freedom	Will bring freedom
1	2	3	4

422. In-country pilgrimage			
Will result in discontinuation or reduced frequency of pilgrimages	Not sure if it will result in discontinuation or reduced frequency of pilgrimages	Will not result in discontinuation or reduced frequency of pilgrimages	Will promote more pilgrimages
1	2	3	4

423. Spirituality			
Will decrease frequency of prayer and praying hours	Not sure if it will decrease frequency of prayer and praying hours	Will not decrease frequency of prayer and praying hours	Will increase frequency of prayer and praying hours
1	2	3	4

13. Community Vitality

Please rate the proposed community programme on the scales below:

424. Inter-village co-operation			
Will lead to competition among village members	Not sure whether it will lead to competition or cooperation among village members	Will not lead to competition among village members	Will strengthen cooperation among village members
1	2	3	4

425. Intra-village co-operation			
Will decrease intra-village cooperation	Not sure whether it will increase or decrease intra- village cooperation	Will not decrease intra- village cooperation	Will strengthen intra-village cooperation
1	2	3	4

426. Volunteerism			
Will not promote volunteerism (in terms of free labour)	Not sure if it will promote volunteerism (in terms of free labour)	Will have no adverse impact on volunteerism (in terms of free labour)	Will encourage volunteerism (in terms of free labour)
1	2	3	4

427. Sharing and giving			
Will discourage values of sharing and giving (<i>jimba</i>)	Not sure if it will discourage values of sharing and giving (<i>jimba</i>)	Will have no adverse impact on values of sharing and giving (<i>jimba</i>)	Will promote values of sharing and giving (<i>jimba</i>)
1	2	3	4

428. Donation			
Will discourage in-kind and cash donation	Not sure if it will discourage in-kind and cash donation	Will not discourage in-kind and cash donation	Will promote in-kind and cash donation
1	2	3	4

429. Safety (crime)			
Will not increase personal and collective safety	Unsure if it will enhance personal and collective safety	Will not deteriorate personal and collective safety	Will increase personal and collective safety
1	2	3	4

430. Physical safety			
Will decrease physical safety	Not sure whether it will increase or decrease physical safety	Will not decrease physical safety	Will increase physical safety
1	2	3	4

431. Local employment			
Will lead to unemployment of local people	Not sure if it will led to local unemployment	Will not lead to unemployment of local people	Will provide employment to local population
1	2	3	4

432. Migration			
Will increase rural-urban migration	Not sure if it will increase rural-urban migration	Will not increase rural-urban migration	Will reduce urban drift
1	2	3	4

433. Trust			
Will weaken trust among villagers	Not sure if it will weaken trust among villagers	Will not weaken trust among villagers	Will increase trust among villagers
1	2	3	4

434. Social cohesion			
Will weaken social cohesion among villagers	Not sure if it will weaken social cohesion among villagers	Will not weaken social cohesion among villagers	Will strengthen social cohesion among villagers
1	2	3	4

--	--	--	--

435. Family relations			
Will lead to breakdown of family relation	Not sure whether it will strengthen or weaken family relation	Will not weaken family relation	Will strengthen family relation
1	2	3	4

436. Community problem1: crop depredation			
Will increase crop depredation by wild animals	Not sure if it will increase crop depredation by wild animals	Will not increase crop depredation by wild animals	Will decrease crop depredation by wild animals
1	2	3	4

437. Community problem2: livestock depredation			
Will increase livestock depredation by wild animals	Not sure if it will increase livestock depredation by wild animals	Will not increase livestock depredation by wild animals	Will decrease livestock depredation by wild animals
1	2	3	4

438. Community problem3: Lack of jobs			
Will result in increased unemployment	Not sure if it will result in increased unemployment	Will not result in increased unemployment	Will result in increased employment
1	2	3	4

439. Community problem4: Poor communication facilities			
Will increase problem of poor communication facilities	Not sure if it will increase problem of poor communication facilities	Will not increase problem of poor communication facilities	Will decrease problem of poor communication facilities
1	2	3	4

440. Community problem5: Poor housing			
Will result in a poor housing	Not sure if it will result in a poor	Will not result in a poor housing	Will improve housing

	housing		
1	2	3	4

441. Community problem6: motor road access			
Will worsen access to motor road	Not sure if it will worsen access to motor road	Will not worsen access to motor road	Will improve access to motor road
1	2	3	4

442. Community problem7: Danger of forest fire			
Will increase risk of forest fire	Not sure if it will increase risk of forest fire	Will not increase risk of forest fire	Will decrease risk of forest fire
1	2	3	4

443. Community problem8: Inadequate electricity supply			
Will worsen supply of electricity	Not sure if it will worsen supply of electricity	Will not worsen supply of electricity	Will improve supply of electricity
1	2	3	4

444. Community problem9: Poor recreation facilities			
Will result in destruction of recreation facilities	Not sure if it will result in destruction of recreation facilities	It will not result in destruction of recreation facilities	It will result in improvement of recreation facilities
1	2	3	4

445. Community problem10: Poor education facilities			
Will reduce education facilities	Not sure if it will reduce education facilities	Will not reduce education facilities	Will improve education facilities
1	2	3	4

446. Community problem11: Lack of clean water			
Will worsen supply of clean water	Not sure if it will worsen supply of clean water	Will not worsen supply of clean water	Will improve supply of clean water

1	2	3	4
----------	----------	----------	----------

447. Community problem12: Crime in the community			
Will increase crime in the community	Not sure if it will increase crime in the community	Will not increase crime in the community	Will decrease crime in the community
1	2	3	4

448. Community problem13: Alcohol			
Will increase alcoholism	Not sure if it will increase alcoholism	Will not increase alcoholism	Will decrease alcoholism
1	2	3	4

449. Community problem14: Inadequate health services			
Will worsen the problem of inadequate health services	Not sure if it will worsen the problem of inadequate health services	Will not worsen the problem of inadequate health services	Will improve the problem of inadequate health services
1	2	3	4

450. Community problem15: Poor garbage disposal			
Will increase problem of garbage disposal	Not sure if it will increase problem of garbage disposal	Will not increase problem of garbage disposal	Will decrease problem of garbage disposal
1	2	3	4

451. Woola			
Will require <i>woola</i> contribution from community	Not sure if it will require <i>woola</i> contribution from community	Will not require <i>woola</i> contribution from community	Will contribute labour to community
1	2	3	4

452. Divorce			
Will increase divorce that leads to low emotional wellbeing	Not sure if it will increase divorce that leads to low	Will not increase divorce that leads to low emotional well-	Will prevent divorce

	emotional wellbeing	being	
1	2	3	4

453. Depression			
Will increase incidences of depression among community members	Not sure if it will increase incidences of depression among community members	Will not increase incidences of depression among community members	Will decrease incidences of depression among community members
1	2	3	4

14. Good Governance

Please rate the proposed good governance programme on the scales below:

454. Decision-making participation			
Will decrease the opportunity for participation in government decisions	Do not know the effects on the opportunity for participation in government decisions	Will not have any appreciable effects on the opportunity for participation in government decisions	Will increase the opportunity for participation in government decisions
1	2	3	4

455. Decentralisation			
Will reduce the decentralisation of decision-making to local GYT/DYT representatives	Do not know the effects on the decentralisation of decision-making to local GYT/DYT representatives	Will not have any appreciable effects on the decentralisation of decision-making to local GYT/DYT representatives	Will reinforce the decentralisation of decision-making to local GYT/DYT representatives
1	2	3	4

456. Electoral participation			
Will decrease the opportunity for equitable participation in electoral processes	Do not know the effects on the opportunity for equitable participation in electoral processes	Will not have any appreciable effects on the opportunity for equitable participation in electoral processes	Will increase the opportunity for equitable participation in electoral processes
1	2	3	4

457. Elections			
Will result in a decline in free and fair elections	Do not know the effects on free and fair elections	Will not have any appreciable effects on free and fair elections	Will result in a reinforcement of free and fair elections
1	2	3	4

458. Civil society			
Will decrease opportunities to participate in civil associations	Do not know the effects on opportunities to participate in civil associations	Will not have any appreciable effects on opportunities to participate in civil associations	Will increase opportunities to participate in civil associations

1	2	3	4
---	---	---	---

459. Government services			
Will decrease individual access to government services	Do not know the effects on individual access to government services	Will not have any appreciable effects on individual access to government services	Will increase individual access to government services
1	2	3	4

460. Distribution of services			
Will result in a less equal distribution of government services	Do not know the effects on the distribution of government services	Will not have any appreciable effects on the distribution of government services	Will result in a more equal distribution of government services
1	2	3	4

461. Service delivery			
Will favour numerous service windows over integrated service delivery	Do not know the effects on the degree of integration of service delivery	Will not have any appreciable effects on the degree of integration of service delivery	Will favour integrated service delivery over numerous service windows
1	2	3	4

462. Bureaucracy			
Will increase the number of required procedures in citizen use of services	Do not know the effects on the number of required procedures in citizen use of services	Will not have any appreciable effects on the number of required procedures in citizen use of services	Will reduce the number of required procedures in citizen use of services
1	2	3	4

463. Sectoral Cooperation			
Will result in reduced sectoral cooperation and multi-sectoral approaches	Do not know the effects on sectoral cooperation and multi-sectoral approaches	Will not have any appreciable effects on sectoral cooperation and multi-sectoral approaches	Will result in increased sectoral cooperation and multi-sectoral approaches

1	2	3	4
---	---	---	---

464. Human resources for GNH			
Will probably decrease the integration of GNH values with human resource development	Do not know the effects on the integration of GNH values with human resource development	Will not have any appreciable effects on the integration of GNH values with human resource development	Will probably increase the integration of GNH values with human resource development
1	2	3	4

465. Accountability			
Will result in reduced government accountability	Do not know the effects on government accountability	Will not have any appreciable effects on government accountability	Will result in increased government accountability
1	2	3	4

466. Corruption			
Will increase the opportunity for corruption	Do not know the effects on corruption	Will not have any appreciable effects on corruption	Will decrease the opportunity for corruption
1	2	3	4

467. Crime			
Will decrease the ability of the government to fight crime	Do not know the effects on the ability of the government to fight crime	Will not have any appreciable effects on the ability of the government to fight crime	Will increase the ability of the government to fight crime
1	2	3	4

468. Judicial access			
Will decrease equitable access to the judicial system	Do not know the effects on equitable access to the judicial system	Will not have any appreciable effects on equitable access to the judicial system	Will increase equitable access to the judicial system
1	2	3	4

469. Judicial independence			
Will decrease the degree of judicial independence	Do not know the effects on the degree of judicial independence	Will not have any appreciable effects on the degree of judicial independence	Will decrease the degree of judicial independence
1	2	3	4

470. Cost of judicial services			
Will increase financial costs required to avail of judicial services	Do not know the effects on financial costs required to avail of judicial services	Will not have any appreciable effects on financial costs required to avail of judicial services	Will decrease financial costs required to avail of judicial services
1	2	3	4

471. Government information			
Will decrease the amount of information that most people have about government practices	Do not know the effects on the amount of information that most people have about government practices	Will not have any appreciable effects on the amount of information that most people have about government practices	Will increase the amount of information that most people have about government practices
1	2	3	4

472. Trust in media			
Will decrease the degree of trust that most people have in the media	Do not know the effects on the degree of trust that most people have in the media	Will not have any appreciable effects on the degree of trust that most people have in the media	Will increase the degree of trust that most people have in the media

Sadness

Frustration

17. Time Use and Balance

499. Family			
Will reduce time normally meant for family	Not sure if it will take away time meant for family	Will not take away time meant for family	Will add more time to spend with family
1	2	3	4

500. Care of children			
Will reduce time for helping children	Not sure if it will reduce time for helping children	Will not decrease time for helping children	Will increase time for helping children,
1	2	3	4

501. Care of sick			
Will reduce time for helping sick	Not sure if will reduce time for helping sick	Will not decrease time for helping sick	Will increase time for helping sick
1	2	3	4

502. Care of elderly household members			
Will reduce time for helping elderly household members	Not sure if it will reduce time for helping elderly household members	Will not decrease time for helping elderly household members	Will increase time for helping elderly household members
1	2	3	4

503. Village participation1: meeting (zomdue)			
Will decrease time for meeting (zomdue)	Not sure if it will decrease time for meeting (zomdue)	Will not decrease time for meeting (zomdue)	Will increase time for meeting (zomdue)
1	2	3	4

504. Village participation2: volunteer and community work			
Will decrease time for volunteer and community work	Not sure if it will decrease time for volunteer and community work	Will not decrease time for volunteer and community work	Will increase time for volunteer and community work

1	2	3	4
----------	----------	----------	----------

505. Social activities			
Will lead to reduced participation in social activities	Not sure if it will reduce participation in social activities	Will not reduce participation in social activities	Will increase participation in social activities
1	2	3	4

506. Cultural activities			
Will lead to reduced participation in cultural activities	Not sure if it will reduce participation in cultural activities	Will not reduce participation in cultural activities	Will increase participation in cultural activities
1	2	3	4

507. Religious activity1: circumambulation			
Will reduce time meant for circumambulation	Not sure if it will reduce time meant for circumambulation	Will not reduce time meant for circumambulation	Will increase time meant for circumambulation
1	2	3	4

508. Religious activity2: offering			
Will reduce time meant for making offering	Not sure if it will reduce time meant for making offering	Will not reduce time meant for making offering	Will increase time meant for making offering
1	2	3	4

509. Religious activity3: conducting rituals/attending teachings			
Will reduce time meant for conducting rituals/attending teachings	Not sure if it will reduce time meant for conducting rituals/attending teachings	Will not reduce time meant for conducting rituals/attending teachings	Will increase time meant for conducting rituals/attending teachings
1	2	3	4

510. Religious activity4: praying			
Will reduce time meant for praying	Not sure if it will reduce time meant for praying	Will not reduce time meant for praying	Will increase time meant for praying
1	2	3	4

511. Religious activity5: prostration			
Will reduce time meant for prostration	Will reduce time meant for prostration	Will not reduce time meant for prostration	Will increase time meant for prostration
1	2	3	4

512. Religious activity6: meditation			
Will reduce time meant for meditation	Not sure if it will reduce time meant for meditation	Will not reduce time meant for meditation	Will increase time meant for meditation
1	2	3	4

513. Sports and entertainment			
Will reduce sports and entertainment time	Not sure of it will reduce leisure and entertainment time	Will not reduce sports and entertainment time	Will increase sports and entertainment time
1	2	3	4

514. Personal care 1: rest and leisure			
Will reduce rest and leisure time	Not sure whether it will reduce rest and leisure time	Will not reduce rest and leisure time	Will increase rest and leisure time
1	2	3	4

515. Personal care 2: sleep			
Will decrease number of sleeping hours	Not sure if it will decrease number sleeping hours	Will not decrease number of sleeping hours	Will increase number of sleeping hours

1	2	3	4
----------	----------	----------	----------

516. Socialization1: family			
Will decrease time for socializing with family	Not sure if it will decrease time for socializing with family	Will not decrease time for socializing with family	Will increase time for socializing with family
1	2	3	4

517. Socialization2: relatives			
Will decrease time for socializing with relatives	Not sure if it will decrease time for socializing with relatives	Will not decrease time for socializing with relatives	Will increase time for socializing with relatives
1	2	3	4

518. Socialization3: friends			
Will decrease time for socializing with friends	Not sure if it will decrease time for socializing with friends	Will not decrease time for socializing with friends	Will increase time for socializing with friends
1	2	3	4

519. Socialization4: neighbours			
Will decrease time for socializing with neighbours	Not sure if it will decrease time for socializing with neighbours	Will not decrease time for socializing with neighbours	Will increase time for socializing with neighbours
1	2	3	4

520. Education and learning			
Will decrease time for education and learning	Not sure if it will decrease time for education and learning	Will not decrease time for education and learning	Will increase time for time for education and learning
1	2	3	4

521. Zorig chusum			
Will decrease time for learning and practicing thirteen arts and crafts	Not sure if it will decrease time for learning and practicing thirteen arts and crafts	Will not decrease time for learning and practicing thirteen arts and crafts	Will increase time for learning and practicing thirteen arts and crafts
1	2	3	4

18. Media and Information:

522. GNH			
Will limit information on the values and principles of GNH development	Do not know the effects on the amount of information that most people have on the values and principles of GNH development	Will not have any appreciable effects on the amount of information that most people have on the values and principles of GNH development	Will inform people on the values and principles of GNH development
1	2	3	4

523. Public discourse			
Will inhibit public discourse at regional and national levels	Do not know the effects on the increased stimulation of public discourse at regional and national levels	Will not have any appreciable effects on the increased stimulation of public discourse at regional and national levels	Will stimulate public discourse at the regional and national levels
1	2	3	4

524. Media commercialism			
Will favour commercialism over public service	Do not know the effects on commercial influence versus public service	Will not have appreciable effects on commercial influence versus public service	Will favor public service over commercial influence
1	2	3	4

525. Media independence1			
Will increase the degree of government influence on media	Do not know the effects on the degree of government influence on private media	Will not have any appreciable effects on the degree of government influence on private media	Will decrease the degree of government influence on private media
1	2	3	4

526. Media independence2			
Will decrease the degree of media independence	Do not know the effects on the degree of media	Will not have any appreciable effects on the degree of media	Will increase the degree of media independence

	independence	independence	
1	2	3	4

527. Media viewership			
Will favor an increase in the viewership of imported media over Bhutanese media	Do not know the effects on the viewership of Bhutanese or imported media	Will not have any appreciable effects on the viewership of Bhutanese or imported media	Will favor an increase the viewership of Bhutanese media over that of imported media
1	2	3	4

528. Corruption			
Will limit information on the corrupt practices taking place in society	Do not know the effects on the amount of information that most people have on corrupt practices taking place in society	Will not have any appreciable effects on the amount of information that most people have on corrupt practices taking place in society	Will inform people on the corrupt practices taking place in society
1	2	3	4

529. Transparency and accountability			
Will result in decreased government transparency and accountability	Do not know the effects on increased government transparency and accountability	Will not have any appreciable effects on increased government transparency and accountability	Will result in increased government transparency and accountability
1	2	3	4

530. Electorate processes			
Will decrease the number of informed people on electorate processes	Do not know the effects on increased number of informed people on electorate processes	Will not have any appreciable effects on increased number of informed people on electorate processes	Will increase the number of informed people on electorate processes
1	2	3	4

531. Voter rights			
Will decrease the number of informed people on voter rights	Do not know the effects on increased number of informed people on voter rights	Will not have any appreciable effects on increased number of informed people on voter rights	Will increase the number of informed people on voter rights
1	2	3	4

532. Political activities			
Will limit information about the activities of political parties	Do not know the effects on the amount of information that most people have on the activities of the political parties	Will not have any appreciable effects on the amount of information that most people have on the activities of the political parties	Will inform public about the activities of political parties
1	2	3	4

533. Judicial			
Will limit information on legal rights and procedures	Do not know the effects on the amount of information that citizens have on legal rights and procedures	Will not have any appreciable effects on the amount of information that citizens have on legal rights and procedures	Will inform citizens on legal rights and procedures
1	2	3	4

534. Dzongkha language			
Will limit the use and development Dzongkha	Do not know the effects on the use and development of Dzongkha	Will not have any appreciable effects on the use and development of Dzongkha	Will promote the use and development Dzongkha
1	2	3	4

535. Mother tongue			
Will limit the use of one's mother tongue	Do not know the effects on the use of one's mother tongue	Will not have any appreciable effects on the use of one's mother tongue	Will promote the use of one's mother tongue

1	2	3	4
---	---	---	---

536. Other dialects			
Will discourage the use of other dialects	Do not know the effects on the use of other dialects	Will not have any appreciable effects on the use of other dialects	Will encourage the use of other dialects
1	2	3	4

537. Dzongkha reading materials			
Will limit publication of Dzongkha reading materials	Do not know the effects on increased publication of Dzongkha reading materials	Will not have any appreciable effects on increased publication of Dzongkha reading materials	Will increase publication of Dzongkha reading materials probably
1	2	3	4

538. Driglam namzha			
Will reduce knowledge and practice of <i>driglam namzha</i>	Do not know the effects on increased knowledge and practice of <i>driglam namzha</i>	Will not have any appreciable effects on increased knowledge and practice of <i>driglam namzha</i>	Will increase knowledge and practice of <i>driglam namzha</i>
1	2	3	4

539. Self-development			
Will limit the promotion of self-development	Do not know the effects on increased promotion of self-development	Will not have any appreciable effects on increased promotion of self-development	Will promote self-development
1	2	3	4

540. Family life			
Will discourage the importance of healthy family life	Do not know the effects on the value of healthy family life	Will not have any appreciable effects on the value of healthy family life	Will encourage the importance of healthy family life
1	2	3	4

541. Friendship			
Will weaken the value of friendship	Do not know the effects on the value of friendship	Will not have any appreciable effects on the value of friendship	Will strengthen the value of friendship
1	2	3	4

542. Spiritual faith			
Will weaken the value of spiritual faith	Do not know the effects on the value of spiritual faith	Will not have any appreciable effects on the value of spiritual faith	Will strengthen the value of spiritual faith
1	2	3	4

543. Compassion			
Will weaken the value of compassion	Do not know the effects on the value of compassion	Will not have any appreciable effects on the value of compassion	Will strengthen the value of compassion
1	2	3	4

544. Responsibility			
Will weaken the value of responsibility	Do not know the effects on the value of responsibility	Will not have any appreciable effects on the value of responsibility	Will strengthen the value of responsibility
1	2	3	4

545. Freedom			
Will weaken the value of freedom	Do not know the effects on the value of freedom	Will not have any appreciable effects on the value of freedom	Will strengthen the value of freedom
1	2	3	4

546. Generosity			
Will weaken the value of generosity	Do not know the effects on the value of generosity	Will not have any appreciable effects on the value of generosity	Will strengthen the value of generosity

1	2	3	4
---	---	---	---

547. Local festivals

Will decrease knowledge and understanding on local festivals	Do not know the effects on increased knowledge and understanding on local festivals	Will not have any appreciable effects on increased knowledge and understanding on local festivals	Will increase knowledge and understanding on local festivals
1	2	3	4

548. Local legends and folk stories

Will decrease knowledge on local legends and folk stories	Do not know the effects on increased knowledge on local legends and folk stories	Will not have any appreciable effects on increased knowledge on local legends and folk stories	Will increase knowledge on local legends and folk stories
1	2	3	4

549. Mask dances

Will decrease knowledge and understanding of masks and other dances performed during national/local tshechu	Do not know the effects on increased knowledge and understanding of masks and other dances performed during national/local tshechu	Will not have any appreciable effects on increased knowledge and understanding of masks and other dances performed during national/local tshechu	Will increase the knowledge and understanding of masks and other dances performed during national/local tshechu
1	2	3	4

550. Folk songs

Will limit popularization of folk songs (<i>Zhungdra, Boedra</i>)	Do not know the effects on the amount of information that most people have on folk songs (<i>Zhungdra, Boedra</i>)	Will not have any appreciable effects on the amount of information that most people have on folk songs	Will popularize folk songs (<i>Zhungdra, Boedra</i>)
1	2	3	4

551. Religious songs

Will limit	Do not know the	Will not have any	Will popularize <i>gurma</i>
------------	-----------------	-------------------	------------------------------

popularization of <i>gurma</i> and other religious songs	effects on the amount of information that most people have on <i>gurma</i> and other religious songs	appreciable effects on the amount of information that most people have on <i>gurma</i> and other religious songs	and other religious songs
1	2	3	4

552. Religious prayers

Will limit knowledge and practice of religious prayers	Do not know the effects on the amount of information that most people have on religious prayers	Will not have any appreciable effects on the amount of information that most people have on religious prayers	Will increase knowledge and practice of religious prayers
1	2	3	4

553. Public ceremonies

Will decrease audience participation in public ceremonies	Do not know the effects on the amount of information that most people have on public ceremonies	Will not have any appreciable effects on the amount of information that most people have on public ceremonies	Will increase audience participation in public ceremonies

1	2	3	4

556. Weaving

Will decrease the promotion of weaving (thagzo)	Do not know the effects on increased promotion of weaving	Will not have any appreciable effects on increased promotion of weaving	Will increase the promotion of weaving
1	2	3	4

557. Embroidery

Will limit the promotion of embroidery (<i>Tshenzo</i>)	Do not know the effects on increased promotion of embroidery	Will not have any appreciable effects on increased promotion of embroidery	Will promote the practice of embroidery
1	2	3	4

558. Painting

Will limit the promotion of painting (<i>lhazo</i>)	Do not know the effects on increased promotion of painting	Will not have any appreciable effects on increased promotion of painting	Will promote the practice of painting
1	2	3	4

559. Carpentry

Will limit the promotion of carpentry (<i>Shingzo</i>)	Do not know the effects on increased promotion of carpentry	Will not have any appreciable effects on increased promotion of carpentry	Will promote the practice of carpentry
1	2	3	4

560. Carving

Will limit the promotion of carving (<i>parzo</i>)	Do not know the effects on increased promotion of carving	Will not have any appreciable effects on increased promotion of carving	Will promote the practice of carving
1	2	3	4

561. Sculpture			
Will limit the promotion of sculpture (<i>jingzo</i>)	Do not know the effects on increased promotion of sculpture	Will not have any appreciable effects on increased promotion of sculpture	Will promote the practice of sculpture (<i>jingzo</i>)
1	2	3	4

562. Casting			
Will limit the promotion of casting (<i>lugzo</i>)	Do not know the effects on increased promotion of casting	Will not have any appreciable effects on increased promotion of casting	Will promote the practice of casting (<i>lugzo</i>)
1	2	3	4

563. Blacksmithing			
Will limit the promotion of blacksmithing (<i>garzo</i>)	Do not know the effects on increased promotion of blacksmithing	Will not have any appreciable effects on increased promotion of blacksmithing	Will promote the practice of blacksmithing (<i>garzo</i>)
1	2	3	4

564. Bamboo works			
Will limit the promotion of bamboo works (<i>tshazo</i>)	Do not know the effects on increased promotion of bamboo works	Will not have any appreciable effects on increased promotion of bamboo works	Will promote bamboo works (<i>tshazo</i>)
1	2	3	4

565. Gold and silver-smithing			
Will limit the promotion of gold and silver-smithing (<i>serzo</i> and <i>nguelzo</i>)	Do not know the effects on increased promotion of gold and silver-smithing	Will not have any appreciable effects on increased promotion of gold and silver-smithing	Will promote gold and silver-smithing (<i>serzo</i> and <i>nguelzo</i>)
1	2	3	4

566. Masonry			
Will limit the promotion of masonry	Do not know the effects on increased	Will not have any appreciable effects on	Will promote the practice of masonry

(dozo)	promotion of masonry	increased promotion of masonry	(dozo)
1	2	3	4

567. Leather works

Will limit the promotion of leather works (<i>kozo</i>)	Do not know the effects on increased promotion of leather works	Will not have any appreciable effects on increased promotion of leather works	Will promote the practice of leather works
1	2	3	4

568. Paper-making

Will limit the promotion paper-making (<i>dezo</i>)	Do not know the effects on increased promotion of leather works	Will not have any appreciable effects on increased promotion of leather works	Will promote the practice of paper-making (<i>dezo</i>)
1	2	3	4

569. Traditional sports and games

Will reduce promotion of traditional sports and games	Do not know the effects on increased promotion of traditional sports and games	Will not have any appreciable effects on increased promotion of traditional sports and games	Will increase promotion traditional sports and games
1	2	3	4

570. HIV aids

Will decrease public awareness on HIV aids	Do not know the effects on increased awareness of HIV aids	Will not have appreciable effects on increased awareness of HIV aids	Will increase public awareness on HIV aids
1	2	3	4

571. Family planning			
Will limit information on the importance of family planning	Do not know the effects on increased knowledge on the importance of family planning	Will not have appreciable effects on increased knowledge on the importance of family planning	Will inform people on the importance of family planning
1	2	3	4

572. Traditional medicine			
Will decrease knowledge about the practices of traditional medicine	Do not know the effects on increased knowledge about the practices of traditional medicine	Will not have appreciable effects on increased knowledge about the practices of traditional medicine	Will increase knowledge about the practices of traditional medicine
1	2	3	4

573. Balanced diet			
Will decrease knowledge on balanced dietary intake	Do not know the effects on increased knowledge about balanced dietary intake	Will not have any appreciable effects on increased knowledge about balanced dietary intake	Will increase knowledge on balanced dietary intake
1	2	3	4

574. Alcohol			
Will limit information on the adverse impacts of alcohol	Do not know the effects of increased amount of information on the adverse impacts of consuming alcohol	Will not have any appreciable effects of increased amount of information on the adverse impacts of consuming alcohol	Will inform people on the adverse impacts of consuming alcohol
1	2	3	4

575. Smoking			
Will limit information on the adverse impacts of smoking	Do not know the effects on the amount of information that most people have on smoking	Will not have any appreciable effects on the amount of information that most people have on smoking	Will inform people on the adverse impacts of smoking

1	2	3	4
---	---	---	---

576. Tobacco			
Will limit information on the adverse impacts of consuming tobacco products	Do not know the effects on the amount of information that most people have on the adverse impacts of consuming tobacco products	Will not have any appreciable effects on the amount of information that most people have on the adverse impacts of consuming tobacco products	Will inform people on the adverse impacts of consuming tobacco products
1	2	3	4

577. Doma			
Will limit information on the adverse impacts of chewing doma	Do not know the effects on the amount of information that most people have on the adverse impacts of chewing doma	Will not have any appreciable effects on the amount of information that most people have on the adverse impacts of chewing doma	Will inform people on the adverse impacts of chewing doma

578. Traditional healers			
Will decrease knowledge about traditional healers	Do not know the effects on increased knowledge about traditional healers	Will not have any appreciable effects on increased knowledge about traditional healers	Will increase knowledge about traditional healers (paw, pam)
1	2	3	4

579. Air pollution			
Will encourage behaviors that increase air pollution	Do not know the effects on increased number of actions that cause air pollution	Will not have any appreciable effects on increased number of actions that cause air pollution	Will discourage behaviors that increase air pollution

1	2	3	4
---	---	---	---

580. Water pollution			
Will encourage behaviors that increase water pollution	Do not know the effects on the increased promotion of human behaviors that decrease water pollution	Will not have any appreciable effects on increased promotion of human behaviors that decrease water pollution	Will discourage behaviors that increase water pollution
	2	3	4

581. Forest conservation			
Will discourage behaviors that assist forest conservation	Do not know the effects on increased promotion of human behaviors that assist forest conservation	Will not have any appreciable effects on increased promotion of human behaviors that assist forest conservation	Will encourage behaviors that assist forest conservation
1	2	3	4

582. Interdependence			
Will weaken understanding of the inter-dependence among man, nature, deities and sentient beings	Do not know the effects on the increased promotion of the interdependence among man, nature, deities and sentient beings	Will not have any appreciable effects on the increased promotion of the interdependence among man, nature, deities and sentient beings	Will promote inter-dependence among man, nature, deities and sentient beings
1	2	3	4

583. Diversity in land use			
Will weaken the understanding of diversity in land use	Do not know the effects on the importance of diversity in land use	Will not have any appreciable effects on the importance of diversity in land use	Will promote importance of diversity in land use
1	2	3	4

584. Diversity in forest and nature conservation			
Will weaken the understanding of	Do not know the effects on the	Will not have any appreciable effects on	Will promote importance of

diversity in forest and nature conservation	importance of diversity in forest and nature conservation	the importance of diversity in forest and nature conservation	diversity in forest and nature conservation
1	2	3	4

585. Environmental rules and regulations

Will limit the knowledge of environmental rules and regulations	Do not know the effects on the amount of information that most people have on environmental rules and regulations	Will not have any appreciable effects on the amount of information that most people have on environmental rules and regulations	Will increase knowledge on environmental rule and regulations
1	2	3	4

586. Abodes and deities

Will discourage the preservation of natural bodies that are considered to be the abodes of deities and spirits	Do not know the effects on increased promotion of human behaviors that preserves natural bodies that are considered to be the abodes of deities and spirits	Will not have any appreciable effects on increased promotion of human behaviors that preserves natural bodies that are considered to be the abodes of deities and spirits	Will promote the preservation of natural bodies that are considered to be the abodes of deities and spirits
--	---	---	---

587. Traditional resource management

Will discourage traditional resource management	Do not know the effects on increased promotion of traditional resource management	Will not have any appreciable effects on increased promotion of traditional resource management	Will encourage traditional resource management
1	2	3	4

588. Forests fires

Will encourage behaviors that increase forest fire risks	Do not know the effects on increased promotion of human behaviors that decreases forest fire risks	Will not have any appreciable effects on increased promotion of human behaviors that decreases forest fire risks	Will discourage behaviors that increase forest fire risks
1	2	3	4

589. Farming and agricultural practices			
Will limit information on farming and agricultural practices	Do not know the effects on the amount of information that most people have on farming and agricultural practices	Will not have any appreciable effects on the amount of information that most people have on farming and agricultural practices	Will provide useful information on farming and agricultural practices
1	2	3	4

590. Electricity			
Will encourage and promote the use of firewood over electricity and LPG	Do not know the effects on increased promotion of the use of electricity and LPG over firewood	Will not have any appreciable effects on increased promotion of the use of electricity and LPG over firewood	Will encourage and promote the use of electricity and LPG over firewood
1	2	3	4

591. Waste management			
Will discourage citizen participation in waste management efforts	Do not know the effects on increased citizen participation in waste management efforts	Will not have any appreciable effects on increased citizen participation in waste management efforts	Will encourage citizen participation in waste management efforts
1	2	3	4

592. Waste production			
Will encourage a lifestyle and consumption pattern that increases waste production	Do not know the effects on increased promotion of a lifestyle and consumption pattern that decreases waste production	Will not have any appreciable effects on increased promotion of a lifestyle and consumption pattern that decreases waste production	Will discourage a lifestyle and consumption pattern that increases waste production
1	2	3	4

19. Public transport and road safety

593. Public transport			
Will result in discontinuation of a reliable public transport system	Not sure if it will result in discontinuation of a reliable public transport system	Will not result in discontinuation of a reliable public transport system	Will result in introduction of a reliable public transport system
1	2	3	4

594. Alternative urban public transport			
Will risk introduction of a mass public transport as an alternative to individual cars	Not sure if it will risk introduction of a mass public transport as an alternative to individual cars	Will not risk introduction of a mass public transport as an alternative to individual cars	Will result in introduction of a mass public transport as an alternative to individual cars
1	2	3	4

595. Safety of public transport system			
Will deteriorate public transport safety	Not sure if it will improve public transport safety	Will not have any affect on public transport safety	Will improve safety of public transport system
1	2	3	4

596. Automobile use			
Will increase use of individual cars	Not sure if it will increase use of individual cars	Will not increase use of individual cars	Will decrease use of individual cars
1	2	3	4

597. Walking to work and office			
Will discourage walking to work and shops	Not sure if it will discourage walking to work and shops	Will not discourage walking to work and shops	Will promote walking to work and shops
1	2	3	4

598. Parking space			
Will reduce public parking spaces	Not sure if it will reduce public parking space	Will improve public parking space	Will increase public parking space
1	2	3	4

599. Road condition			
Will deteriorate conditions of road	Not sure if it will deteriorate conditions of road	Will not deteriorate conditions of road	Will improve conditions of road
1	2	3	4

600. Vehicle condition			
Will deteriorate system that will monitor vehicle conditions	Not sure if it will deteriorate system that will monitor vehicle conditions	Will not deteriorate system that will monitor vehicle conditions	Will improve system that will monitor vehicle conditions
1	2	3	4

601. Public transport information			
Will limit information on public transport	Not sure if it will limit information on public transport	Will not limit information on public transport	Will improve information on public transport
1	2	3	4

602. Taxi service			
Will restrict taxi service	Not sure if it will restrict taxi service	Will not restrict taxi service	Will improve taxi service
1	2	3	4

603. Transport fare			
Will increase public transport fare	Not sure if it will increase public transport fare	Will not increase public transport fare	Will decrease public transport fare
1	2	3	4

604. Comfort			
Will worsen comfort in the public transport	Not sure if it will worsen comfort in the public transport	Will not worsen comfort in the public transport	Will improve comfort in the public transport
1	2	3	4

605. Auto-workshops			
Will decrease number of auto-workshops, especially along national highways	Not sure if it will decrease number of auto-workshops, especially along national highways	Will not decrease number of auto-workshops, especially along national highways	Will increase number of auto-workshops, especially along national highways
1	2	3	4

606. Fuel stations			
Will result in increased number of fuel station, especially along national highways	Not sure if it will result in increased number of fuel station, especially along national highways	Will not result in increased number of fuel station, especially along national highways	Will result in decreased number of fuel station, especially along national highways
1	2	3	4

607. Frequency of service			
Will decrease frequency of transport services between destinations	Not sure if it will decrease frequency of transport services between places	Will not decrease frequency of transport services between places	Will increase frequency of transport services between places
1	2	3	4

608. Road safety law enforcement			
Will lead to a relaxed enforcement of road safety law enforcement	Not sure if it will lead to a relaxed enforcement of road safety law enforcement	Will not lead to a relaxed enforcement of road safety law enforcement	Will lead to increased enforcement of road safety law enforcement

1	2	3	4
----------	----------	----------	----------

609. ICT-ization of transport information			
Will result in a decreased ICT-ization of travel information	Not sure if it will result in a decreased ICT-ization of travel information	Will not result in a decreased ICT-ization of travel information	Will result in an increased ICT-ization of travel information
1	2	3	4

610. Increase travel routes			
Will reduce number of travel routes	Not sure if it will reduce number of travel routes	Will not reduce number of travel routes	Will increase number of travel routes
1	2	3	4

611. Vehicle cleanliness			
Will deteriorate cleanliness of vehicles	Not sure if it will deteriorate cleanliness of vehicles	Will not deteriorate cleanliness of vehicles	Will improve cleanliness of vehicles
1	2	3	4

612. Bus stop points			
Will reduce number of bus-stop points	Not sure if it will reduce number of bus-stop points	Will not reduce number of bus-stop points	Will increase number of bus-stop points
1	2	3	4

613. Travel insurance			
Will discontinue travel insurance	Not sure if it will discontinue travel insurance	Will not discontinue travel insurance	Will initiate a travel insurance
1	2	3	4

614. Passengers service			
Will reduce travellers' services and facilities such as affordable hotels, telephones etc. especially at destinations	Not sure if it will reduce travellers' services and facilities such as affordable hotels, telephones etc. especially at destinations	Will not reduce travellers' services and facilities such as affordable hotels, telephones etc. especially at destinations	Will increase travellers' services and facilities such as affordable hotels, telephones etc. especially at destinations
1	2	3	4
