

Project Selection Tools by Dorji Penjore (work under progress)

9. Health

Indicators

9. Health.....	1
1. Disability	2
2. Beverage consumption	2
3. Drugs consumption.....	2
4. Smoking.....	2
5. Doma	2
6. Suicide	2
7. Physical activity.....	3
8. Physical exercise.....	3
9. Fast/packaged food	3
10. Obesity.....	3
11. Cost of accessing health services.....	3
12. Health centre proximity	4
13. Patients' waiting time	4
14. Patients' referral time	4
15. Health care access.....	4
16. Skill and competency of health staff	4
17. Religious persons.....	4
18. Traditional healers	5
19. Indigenous medicine.....	5
20. Traditional medicine (<i>sowa rigpa</i>)	5
21. Mental disorder.....	5
22. Sanitation and hygiene.....	5

Project Selection Tools by Dorji Penjore (work under progress)

1. Disability			
Will increase disability	Not sure if it will increase disability	Will not increase disability	Will decrease disability
1	2	3	4

2. Beverage consumption			
Will increase beverage consumption in community	Not sure if it will increase beverage consumption in community	Will not increase beverage consumption in community	Will decrease beverage consumption in community
1	2	3	4

3. Drugs consumption			
Will encourage consumption of drugs	Not sure if it will encourage consumption of drugs	Will not encourage consumption of drugs	Will discourage consumption of drugs
1	2	3	4

4. Smoking			
Will increase import, sale and consumption of cigarettes and other tobacco products	Not sure if it will increase import, sale and consumption of cigarettes and other tobacco products	Will not increase import, sale and consumption of cigarettes and other tobacco products	Will decrease import, sale and consumption of cigarettes and other tobacco products
1	2	3	4

5. Doma			
Will encourage sale and consumption of <i>doma</i>	Not sure if it will encourage sale and consumption of <i>doma</i>	Will not encourage sale and consumption of <i>doma</i>	Will discourage sale and chewing of <i>doma</i>
1	2	3	4

6. Suicide			
Will increase incidence of suicide	Not sure if it will increase incidence of suicide	Will not increase incidence of suicide	Will decrease incidence of suicide
1	2	3	4

Project Selection Tools by Dorji Penjore (work under progress)

1	2	3	4
---	---	---	---

7. Physical activity			
Will discourage physical activity	Not sure if it will discourage a physical activity	Will not discourage a physical activity	Will encourage a physical activity
1	2	3	4

8. Physical exercise			
Will discourage physical exercise	Not sure if it will discourage physical exercise	Will not discourage physical exercise	Will encourage physical exercise
1	2	3	4

9. Fast/package food			
Will increase consumption of fast/package food	Not sure if it will increase consumption of fast/package food	Will not increase consumption of fast/package food	Will decrease/discourage consumption of fast/package food
1	2	3	4

10. Obesity			
Will encourage food habits that will lead to obesity	Not sure if it will promote obesity	Will not promote obesity-related food	Will reduce incidences of obesity
1	2	3	4

11. Cost of accessing health services			
Will increase cost of accessing health care services	It is not sure if it will increase cost of accessing health care services	Will not increase cost of accessing health care services	Will decrease cost of accessing health care services
1	2	3	4

Project Selection Tools by Dorji Penjore (work under progress)

12. Health centre proximity			
Will increase distance to health centres	Not sure of it will increase distance to health centres	Will not increase distance to health centres	Will decrease distance to health centres
1	2	3	4

13. Patients' waiting time			
Will increase patients' waiting time	Not sure if it will increase patients' waiting time	Will decrease patients' waiting time	Will decrease patients' waiting time
1	2	3	4

14. Patients' referral time			
Will increase patients' referral time	Not sure if it will increase patients' referral time	Will decrease patients' referral time	Will decrease patients' referral time
1	2	3	4

15. Health care access			
Will decrease access to health care services	Not sure if will decrease access to health care services	Will not decrease access to health care services	Will increase access to health care services
1	2	3	4

16. Skill and competency of health staff			
Will not develop skill and competency of health staff			
1	2	3	4

17. Religious persons			
Will discourage the role of religious persons in times of sickness	Not sure if it will discourage the role of religious persons in times of sickness	Will not discourage the role of religious persons in times of sickness	Will encourage the role of religious persons in times of sickness
1	2	3	4

Project Selection Tools by Dorji Penjore (work under progress)

--	--	--	--

18. Traditional healers			
Will discourage the role of <i>paw</i> , <i>pamo</i> , and <i>Bonpo</i> at times of sickness	Not sure whether the role of <i>paw</i> , <i>pamo</i> , and <i>Bonpo</i> will be discourage at times of sickness	Will not discourage the role of <i>paw</i> , <i>pamo</i> , and <i>Bonpo</i> at times of sickness	Will encourage the role of <i>paw</i> , <i>pamo</i> , and <i>Bonpo</i> at times of sickness
1	2	3	4

19. Indigenous medicine			
Will discourage knowledge and practice of indigenous medicine	Not sure of Will discourage knowledge and practice of indigenous medicine	Will not discourage knowledge and practice of indigenous medicine	Will encourage knowledge and practice of indigenous medicine
1	2	3	4

20. Traditional medicine (<i>sowa rigpa</i>)			
Will discourage traditional medicine	Not sure if it will discourage traditional medicine	Will not discourage traditional medicine	Will encourage traditional medicine
1	2	3	4

21. Mental disorder			
Will increase risk that will lead to mental disorder	Not sure if it will increase risk that will lead to mental disorder	Will not increase risk that will lead to mental disorder	Will decrease risk that will lead to mental disorder
1	2	3	4

22. Sanitation and hygiene			
Will deteriorate sanitation and hygiene of households and villages	Not sure of it will deteriorate sanitation and hygiene of households and villages	Will not deteriorate sanitation and hygiene of households and villages	Will improve sanitation and hygiene of households and villages
1	2	3	4
