# Project Selection Tools by Dorji Penjore (work under progress)

<b>1. GNH</b>			
Will limit information on the values and principles of GNH development	Do not know the effects on the amount of information that most people have on the values and principles of GNH development	Will not have any appreciable effects on the amount of information that most people have on the values and principles of GNH development	Will inform people on the values and principles of GNH development
1	2	3	4

<b>2. Public discourse</b>			
Will inhibit public discourse at regional and national levels	Do not know the effects on the increased stimulation of public discourse at regional and national levels	Will not have any appreciable effects on the increased stimulation of public discourse at regional and national levels	Will stimulate public discourse at the regional and national levels
1	2	3	4

<b>3. Media commercialism</b>			
Will favour commercialism over public service	Do not know the effects on commercial influence versus public service	Will not have appreciable effects on commercial influence versus public service	Will favor public service over commercial influence
1	2	3	4

<b>4. Media independence1</b>			
Will increase the degree of government influence on media	Do not know the effects on the degree of government influence on private media	Will not have any appreciable effects on the degree of government influence on private media	Will decrease the degree of government influence on private media
1	2	3	4

<b>5. Media independence2</b>			
Will decrease the degree of media independence	Do not know the effects on the degree of media independence	Will not have any appreciable effects on the degree of media independence	Will increase the degree of media independence
1	2	3	4

## Project Selection Tools by Dorji Penjore (work under progress)

<b>6. Media viewership</b>			
Will favor an increase in the viewership of imported media over Bhutanese media	Do not know the effects on the viewership of Bhutanese or imported media	Will not have any appreciable effects on the viewership of Bhutanese or imported media	Will favor an increase the viewership of Bhutanese media over that of imported media
1	2	3	4

<b>7. Corruption</b>			
Will limit information on the corrupt practices taking place in society	Do not know the effects on the amount of information that most people have on corrupt practices taking place in society	Will not have any appreciable effects on the amount of information that most people have on corrupt practices taking place in society	Will inform people on the corrupt practices taking place in society
1	2	3	4

<b>8. Transparency and accountability</b>			
Will result in decreased government transparency and accountability	Do not know the effects on increased government transparency and accountability	Will not have any appreciable effects on increased government transparency and accountability	Will result in increased government transparency and accountability
1	2	3	4

<b>9. Electorate processes</b>			
Will decrease the number of informed people on electorate processes	Do not know the effects on increased number of informed people on electorate processes	Will not have any appreciable effects on increased number of informed people on electorate processes	Will increase the number of informed people on electorate processes
1	2	3	4

<b>10. Voter rights</b>			
Will decrease the number of informed people on voter rights	Do not know the effects on increased number of informed people on voter rights	Will not have any appreciable effects on increased number of informed people on voter rights	Will increase the number of informed people on voter rights

## Project Selection Tools by Dorji Penjore (work under progress)

1	2	3	4
---	---	---	---

### 11. Political activities

Will limit information about the activities of political parties	Do not know the effects on the amount of information that most people have on the activities of the political parties	Will not have any appreciable effects on the amount of information that most people have on the activities of the political parties	Will inform public about the activities of political parties
1	2	3	4

### 12. Judicial

Will limit information on legal rights and procedures	Do not know the effects on the amount of information that citizens have on legal rights and procedures	Will not have any appreciable effects on the amount of information that citizens have on legal rights and procedures	Will inform citizens on legal rights and procedures
1	2	3	4

### 13. Dzongkha language

Will limit the use and development Dzongkha	Do not know the effects on the use and development of Dzongkha	Will not have any appreciable effects on the use and development of Dzongkha	Will promote the use and development Dzongkha
1	2	3	4

### 14. Mother tongue

Will limit the use of one's mother tongue	Do not know the effects on the use of one's mother tongue	Will not have any appreciable effects on the use of one's mother tongue	Will promote the use of one's mother tongue
1	2	3	4

### 15. Other dialects

Will discourage the use of other dialects	Do not know the effects on the use of other dialects	Will not have any appreciable effects on the use of other dialects	Will encourage the use of other dialects
1	2	3	4

## Project Selection Tools by Dorji Penjore (work under progress)

<b>16. Dzongkha reading materials</b>			
Will limit publication of Dzongkha reading materials	Do not know the effects on increased publication of Dzongkha reading materials	Will not have any appreciable effects on increased publication of Dzongkha reading materials	Will increase publication of Dzongkha reading materials probably
1	2	3	4

<b>17. Driglam namzha</b>			
Will reduce knowledge and practice of <i>driglam namzha</i>	Do not know the effects on increased knowledge and practice of <i>driglam namzha</i>	Will not have any appreciable effects on increased knowledge and practice of <i>driglam namzha</i>	Will increase knowledge and practice of <i>driglam namzha</i>
1	2	3	4

<b>18. Self-development</b>			
Will limit the promotion of self-development	Do not know the effects on increased promotion of self-development	Will not have any appreciable effects on increased promotion of self-development	Will promote self-development
1	2	3	4

<b>19. Family life</b>			
Will discourage the importance of healthy family life	Do not know the effects on the value of healthy family life	Will not have any appreciable effects on the value of healthy family life	Will encourage the importance of healthy family life
1	2	3	4

<b>20. Friendship</b>			
Will weaken the value of friendship	Do not know the effects on the value of friendship	Will not have any appreciable effects on the value of friendship	Will strengthen the value of friendship
1	2	3	4

<b>21. Spiritual faith</b>			
Will weaken the value of spiritual faith	Do not know the effects on the value of spiritual	Will not have any appreciable effects on	Will strengthen the value of spiritual faith

## Project Selection Tools by Dorji Penjore (work under progress)

	faith	the value of spiritual faith	
1	2	3	4

### 22. Compassion

Will weaken the value of compassion	Do not know the effects on the value of compassion	Will not have any appreciable effects on the value of compassion	Will strengthen the value of compassion
1	2	3	4

### 23. Responsibility

Will weaken the value of responsibility	Do not know the effects on the value of responsibility	Will not have any appreciable effects on the value of responsibility	Will strengthen the value of responsibility
1	2	3	4

### 24. Freedom

Will weaken the value of freedom	Do not know the effects on the value of freedom	Will not have any appreciable effects on the value of freedom	Will strengthen the value of freedom
1	2	3	4

### 25. Generosity

Will weaken the value of generosity	Do not know the effects on the value of generosity	Will not have any appreciable effects on the value of generosity	Will strengthen the value of generosity
1	2	3	4

### 26. Local festivals

Will decrease knowledge and understanding on local festivals	Do not know the effects on increased knowledge and understanding on local festivals	Will not have any appreciable effects on increased knowledge and understanding on local festivals	Will increase knowledge and understanding on local festivals
1	2	3	4

## Project Selection Tools by Dorji Penjore (work under progress)

<b>27. Local legends and folk stories</b>			
Will decrease knowledge on local legends and folk stories	Do not know the effects on increased knowledge on local legends and folk stories	Will not have any appreciable effects on increased knowledge on local legends and folk stories	Will increase knowledge on local legends and folk stories
1	2	3	4

<b>28. Mask dances</b>			
Will decrease knowledge and understanding of masks and other dances performed during national/local tshechu	Do not know the effects on increased knowledge and understanding of masks and other dances performed during national/local tshechu	Will not have any appreciable effects on increased knowledge and understanding of masks and other dances performed during national/local tshechu	Will increase the knowledge and understanding of masks and other dances performed during national/local tshechu
1	2	3	4

<b>29. Folk songs</b>			
Will limit popularization of folk songs ( <i>Zhungdra</i> , <i>Boedra</i> )	Do not know the effects on the amount of information that most people have on folk songs ( <i>Zhungdra</i> , <i>Boedra</i> )	Will not have any appreciable effects on the amount of information that most people have on folk songs	Will popularize folk songs ( <i>Zhungdra</i> , <i>Boedra</i> )
1	2	3	4

<b>30. Religious songs</b>			
Will limit popularization of <i>gurma</i> and other religious songs	Do not know the effects on the amount of information that most people have on <i>gurma</i> and other religious songs	Will not have any appreciable effects on the amount information that most people have on <i>gurma</i> and other religious songs	Will popularize <i>gurma</i> and other religious songs
1	2	3	4

<b>31. Religious prayers</b>			
Will limit knowledge and practice of religious prayers	Do not know the effects on the amount of information that most people have on religious prayers	Will not have any appreciable effects on the amount of information that most people have on religious prayers	Will increase knowledge and practice of religious prayers

## Project Selection Tools by Dorji Penjore (work under progress)

1	2	3	4
---	---	---	---

### 32. Public ceremonies

Will decrease audience participation in public ceremonies	Do not know the effects on the amount of information that most people have on public ceremonies	Will not have any appreciable effects on the amount of information that most people have on public ceremonies	Will increase audience participation in public ceremonies
1	2	3	4

### 33. Historical sites and religious sites

Will limit knowledge on the significance of historical and religious sites	Do not know the effects on the amount of information that most people have on historical and religious sites	Will not have any appreciable effects on the amount of information that most people have on historical and religious sites	Will increase knowledge on the significance of historical and religious sites
1	2	3	4

### 34. Architecture and design

Will limit the promotion of indigenous styles of architecture and design	Do not know the effects on the amount of information that most people have on indigenous styles of architecture and design	Will not have any appreciable effects on the amount of information that most people have on indigenous styles of architecture and design	Will promote indigenous styles of architecture and design
1	2	3	4

### 35. Weaving

Will decrease the promotion of weaving (thagzo)	Do not know the effects on increased promotion of weaving	Will not have any appreciable effects on increased promotion of weaving	Will increase the promotion of weaving
1	2	3	4

### 36. Embroidery

Will limit the promotion of embroidery ( <i>Tshenzo</i> )	Do not know the effects on increased promotion of embroidery	Will not have any appreciable effects on increased promotion of	Will promote the practice of embroidery
---	--	---	---

## Project Selection Tools by Dorji Penjore (work under progress)

		embroidery	
1	2	3	4

<b>37. Painting</b>			
Will limit the promotion of painting ( <i>lhazo</i> )	Do not know the effects on increased promotion of painting	Will not have any appreciable effects on increased promotion of painting	Will promote the practice of painting
1	2	3	4

<b>38. Carpentry</b>			
Will limit the promotion of carpentry ( <i>Shingzo</i> )	Do not know the effects on increased promotion of carpentry	Will not have any appreciable effects on increased promotion of carpentry	Will promote the practice of carpentry
1	2	3	4

<b>39. Carving</b>			
Will limit the promotion of carving ( <i>parzo</i> )	Do not know the effects on increased promotion of carving	Will not have any appreciable effects on increased promotion of carving	Will promote the practice of carving
1	2	3	4

<b>40. Sculpture</b>			
Will limit the promotion of sculpture ( <i>jingzo</i> )	Do not know the effects on increased promotion of sculpture	Will not have any appreciable effects on increased promotion of sculpture	Will promote the practice of sculpture ( <i>jingzo</i> )
1	2	3	4

<b>41. Casting</b>			
Will limit the promotion of casting ( <i>lugzo</i> )	Do not know the effects on increased promotion of casting	Will not have any appreciable effects on increased promotion of casting	Will promote the practice of casting ( <i>lugzo</i> )
1	2	3	4

## Project Selection Tools by Dorji Penjore (work under progress)

<b>42. Blacksmithing</b>			
Will limit the promotion of blacksmithing ( <i>garzo</i> )	Do not know the effects on increased promotion of blacksmithing	Will not have any appreciable effects on increased promotion of blacksmithing	Will promote the practice of blacksmithing ( <i>garzo</i> )
1	2	3	4

<b>43. Bamboo works</b>			
Will limit the promotion of bamboo works ( <i>tshazo</i> )	Do not know the effects on increased promotion of bamboo works	Will not have any appreciable effects on increased promotion of bamboo works	Will promote bamboo works ( <i>tshazo</i> )
1	2	3	4

<b>44. Gold and silver-smithing</b>			
Will limit the promotion of gold and silver-smithing ( <i>serzo</i> and <i>nguelzo</i> )	Do not know the effects on increased promotion of gold and silver-smithing	Will not have any appreciable effects on increased promotion of gold and silver-smithing	Will promote gold and silver-smithing ( <i>serzo</i> and <i>nguelzo</i> )
1	2	3	4

<b>45. Masonry</b>			
Will limit the promotion of masonry ( <i>dozo</i> )	Do not know the effects on increased promotion of masonry	Will not have any appreciable effects on increased promotion of masonry	Will promote the practice of masonry ( <i>dozo</i> )
1	2	3	4

<b>46. Leather works</b>			
Will limit the promotion of leather works ( <i>kozo</i> )	Do not know the effects on increased promotion of leather works	Will not have any appreciable effects on increased promotion of leather works	Will promote the practice of leather works
1	2	3	4

<b>47. Paper-making</b>			
Will limit the promotion of paper-making ( <i>dezo</i> )	Do not know the effects on increased promotion of leather works	Will not have any appreciable effects on increased promotion of leather works	Will promote the practice of paper-making ( <i>dezo</i> )

## Project Selection Tools by Dorji Penjore (work under progress)

1	2	3	4
---	---	---	---

<b>48. Traditional sports and games</b>			
Will reduce promotion of traditional sports and games	Do not know the effects on increased promotion of traditional sports and games	Will not have any appreciable effects on increased promotion of traditional sports and games	Will increase promotion traditional sports and games
1	2	3	4

<b>49. HIV aids</b>			
Will decrease public awareness on HIV aids	Do not know the effects on increased awareness of HIV aids	Will not have appreciable effects on increased awareness of HIV aids	Will increase public awareness on HIV aids
1	2	3	4

<b>50. Family planning</b>			
Will limit information on the importance of family planning	Do not know the effects on increased knowledge on the importance of family planning	Will not have appreciable effects on increased knowledge on the importance of family planning	Will inform people on the importance of family planning
1	2	3	4

<b>51. Traditional medicine</b>			
Will decrease knowledge about the practices of traditional medicine	Do not know the effects on increased knowledge about the practices of traditional medicine	Will not have appreciable effects on increased knowledge about the practices of traditional medicine	Will increase knowledge about the practices of traditional medicine
1	2	3	4

<b>52. Balanced diet</b>			
Will decrease knowledge on balanced dietary intake	Do not know the effects on increased knowledge about balanced dietary intake	Will not have any appreciable effects on increased knowledge about balanced dietary intake	Will increase knowledge on balanced dietary intake

## Project Selection Tools by Dorji Penjore (work under progress)

1	2	3	4
---	---	---	---

<b>53. Alcohol</b>			
Will limit information on the adverse impacts of alcohol	Do not know the effects of increased amount of information on the adverse impacts of consuming alcohol	Will not have any appreciable effects of increased amount of information on the adverse impacts of consuming alcohol	Will inform people on the adverse impacts of consuming alcohol
1	2	3	4

<b>54. Smoking</b>			
Will limit information on the adverse impacts of smoking	Do not know the effects on the amount of information that most people have on smoking	Will not have any appreciable effects on the amount of information that most people have on smoking	Will inform people on the adverse impacts of smoking
1	2	3	4

<b>55. Tobacco</b>			
Will limit information on the adverse impacts of consuming tobacco products	Do not know the effects on the amount of information that most people have on the adverse impacts of consuming tobacco products	Will not have any appreciable effects on the amount of information that most people have on the adverse impacts of consuming tobacco products	Will inform people on the adverse impacts of consuming tobacco products
1	2	3	4

<b>56. Doma</b>			
Will limit information on the adverse impacts of chewing doma	Do not know the effects on the amount of information that most people have on the adverse impacts of chewing doma	Will not have any appreciable effects on the amount of information that most people have on the adverse impacts of chewing doma	Will inform people on the adverse impacts of chewing doma
1	2	3	4

## Project Selection Tools by Dorji Penjore (work under progress)

<b>57. Traditional healers</b>			
Will decrease knowledge about traditional healers	Do not know the effects on increased knowledge about traditional healers	Will not have any appreciable effects on increased knowledge about traditional healers	Will increase knowledge about traditional healers (paw, pam)
1	2	3	4

<b>58. Air pollution</b>			
Will encourage behaviors that increase air pollution	Do not know the effects on increased number of actions that cause air pollution	Will not have any appreciable effects on increased number of actions that cause air pollution	Will discourage behaviors that increase air pollution
1	2	3	4

<b>59. Water pollution</b>			
Will encourage behaviors that increase water pollution	Do not know the effects on the increased promotion of human behaviors that decrease water pollution	Will not have any appreciable effects on increased promotion of human behaviors that decrease water pollution	Will discourage behaviors that increase water pollution
	2	3	4

<b>60. Forest conservation</b>			
Will discourage behaviors that assist forest conservation	Do not know the effects on increased promotion of human behaviors that assist forest conservation	Will not have any appreciable effects on increased promotion of human behaviors that assist forest conservation	Will encourage behaviors that assist forest conservation
1	2	3	4

<b>61. Interdependence</b>			
Will weaken understanding of the inter-dependence among man, nature, deities and sentient beings	Do not know the effects on the increased promotion of the interdependence among man, nature, deities and sentient beings	Will not have any appreciable effects on the increased promotion of the interdependence among man, nature, deities and sentient	Will promote inter-dependence among man, nature, deities and sentient beings

## Project Selection Tools by Dorji Penjore (work under progress)

		beings	
1	2	3	4

### 62. Diversity in land use

Will weaken the understanding of diversity in land use	Do not know the effects on the importance of diversity in land use	Will not have any appreciable effects on the importance of diversity in land use	Will promote importance of diversity in land use
1	2	3	4

### 63. Diversity in forest and nature conservation

Will weaken the understanding of diversity in forest and nature conservation	Do not know the effects on the importance of diversity in forest and nature conservation	Will not have any appreciable effects on the importance of diversity in forest and nature conservation	Will promote importance of diversity in forest and nature conservation
1	2	3	4

### 64. Environmental rules and regulations

Will limit the knowledge of environmental rules and regulations	Do not know the effects on the amount of information that most people have on environmental rules and regulations	Will not have any appreciable effects on the amount of information that most people have on environmental rules and regulations	Will increase knowledge on environmental rule and regulations
1	2	3	4

### 65. Abodes and deities

Will discourage the preservation of natural bodies that are considered to be the abodes of deities and spirits	Do not know the effects on increased promotion of human behaviors that preserves natural bodies that are considered to be the abodes of deities and spirits	Will not have any appreciable effects on increased promotion of human behaviors that preserves natural bodies that are considered to be the abodes of deities and spirits	Will promote the preservation of natural bodies that are considered to be the abodes of deities and spirits
--	---	---	---

### 66. Traditional resource management

Will discourage traditional resource management	Do not know the effects on increased promotion of traditional resource management	Will not have any appreciable effects on increased promotion of traditional resource	Will encourage traditional resource management
---	---	--	--

## Project Selection Tools by Dorji Penjore (work under progress)

		management	
1	2	3	4

### 67. Forests fires

Will encourage behaviors that increase forest fire risks	Do not know the effects on increased promotion of human behaviors that decreases forest fire risks	Will not have any appreciable effects on increased promotion of human behaviors that decreases forest fire risks	Will discourage behaviors that increase forest fire risks
1	2	3	4

### 68. Farming and agricultural practices

Will limit information on farming and agricultural practices	Do not know the effects on the amount of information that most people have on farming and agricultural practices	Will not have any appreciable effects on the amount of information that most people have on farming and agricultural practices	Will provide useful information on farming and agricultural practices
1	2	3	4

### 69. Electricity

Will encourage and promote the use of firewood over electricity and LPG	Do not know the effects on increased promotion of the use of electricity and LPG over firewood	Will not have any appreciable effects on increased promotion of the use of electricity and LPG over firewood	Will encourage and promote the use of electricity and LPG over firewood
1	2	3	4

### 70. Waste management

Will discourage citizen participation in waste management efforts	Do not know the effects on increased citizen participation in waste management efforts	Will not have any appreciable effects on increased citizen participation in waste management efforts	Will encourage citizen participation in waste management efforts
1	2	3	4

### 71. Waste production

Will encourage a lifestyle and	Do not know the effects on increased promotion	Will not have any appreciable effects on	Will discourage a lifestyle and
--------------------------------	--	--	---------------------------------

# Project Selection Tools by Dorji Penjore (work under progress)

consumption pattern that increases waste production	of a lifestyle and consumption pattern that decreases waste production	increased promotion of a lifestyle and consumption pattern that decreases waste production	consumption pattern that increases waste production
1	2	3	4
